

TSN Requirement Report - ALL COMMITTEE REQUIREMENTS

Requirement #	GIF	TSN Requirement Description	Submission date	Status	Release (s)	Comments
ACT-001		The Trade must have the capability to establish and define their own accounts. (Portal requirement)	8/1/2001	Accepted	2, 3, 4, A1, A2	Update 4/20/09 - Consider requirement closed. Any new account types will be covered by future GIFs. Update 3/25/08 - CBP needs to approve the account structure. Update 4/11/2007: In scope for A1 Importer accounts delivered in Account Creation (Release 2). Periodic Payment (Release 3) establishes initial broker and truck carrier accounts. Other account types are scheduled for future releases. Account structure is subject to approval by US Customs and Border Protection (CBP) Periodic Payment (Release 3) will provide for multiple business categories for an account. <i>Owner:</i> Monica Crockett
ACT-001.1		A. The Trade must also be able to establish relationships between accounts in different trade roles. B. The Trade must be able to link multiple (sub) accounts across corporate structure. C. ACE will generate a unique identifier for each defined account and will ensure that the account being defined does not duplicate another with the same name. (Portal requirement)	8/1/2001	Accepted	2, 3, 4, A1, A2	Update: 4/20/09 - Considered closed. Future requirements will be addressed with GIFs. Status 4/11/2007: In scope for A1, A2, A3. <i>Owner:</i> Monica Crockett

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ACT-002	968	The Trade must have the capability to access all data pertaining to their account, both administrative and transaction. (Portal requirement)	8/1/2001	Accepted in Part	2, 3, 4, A1, A2.3, A2.4, A3, M1, M2.1, M2.3, M3	<p>DETERMINED TO BE IN SCOPE FOR M1</p> <p>AUGUST 18, 2009-THIS REQUIREMENT (CSPO-GIF-968) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW. THIS GIF COVERS ACT-002, ACT-002.1 FOR ALL FUTURE RELEASES.</p> <p>062909: Existing functionality, if carried through to M1 and future releases, will meet this trade requirement.</p> <p>Status 3/25/08 - ad hoc reports capabilities are scheduled for A2.1 Additional data will also be made available in A2.1</p> <p>Status 4/11/2007: In scope for implementation.</p> <p>All ACS transadctional data will not be available with Account Creation (Release 2) and Periodic Payment (Release 3). Additional data will be available in the future Data availability will expand as ACE becomes the system of record. Initial transactional data will be updated nightly. Compliance data will be updated monthly. Access privileges to account data are controlled by the Account Owner. Ad hoc report generating capabilities will not be provided because of concerns with both band width and systems performance. Periodic Payment (Release 3) will provide additional capabilities to the trade in terms of being able to select specified fields for reports. Capability to run 60 plus reports will be provided in Periodic Payment (Release 3). Cross over with other business processes. Trade will have access to the transaction data in ACE that is available in ABI today</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p>

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ACT-004	970	Capability for the Trade to access the list of the compliance data elements and definitions, including how CBP tracks/measures them.	8/1/2001	Accepted in Part	2, 3, 4, A1, A2.3, A2.4, A3, M1, M2.1, M2.3, M3	<p>DETERMINED TO BE IN SCOPE FOR M1</p> <p>AUGUST 18, 2009-THIS REQUIREMENT (CSPO-GIF-970) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW. THIS GIF COVERS ACT-004, ACT-007.5, ACT-007.14, ACT-014.1FOR ALL FUTURE RELEASES.</p> <p>062909: Trade looking for compliance information for ocean/rail manifest.</p> <p>Update: 3/25/08 - Planned for A2.2</p> <p>Status 4/11/07: In scope for implementation.</p> <p>Account Creation (Release 2) provides for aggregated cargo exam compliance reports and entry summary compliance reports with the ability to drill down to the discrepancy details. Periodic Payment (Release 3) will provide further filtering capabilities for the reports and will allow the user to generate a report on one discrepancy flag indicator in addition to the Account Creation (Release 2) report which shows all flags. The ability to review remarks is under review by legal policy.</p> <p>Cross over with multiple business processes. Compliance measurement information as delivered in Release 2 will continue to be provided to brokers and importers with ACE portal accounts. CBP does not provide information on the methodology they use to track company compliance.</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p> <p><i>Owner:</i> Monica Crockett</p>
ACT-005		Electronic power of attorney capability whereby an account can establish and maintain a POA relationship	10/1/2001	Rejected	2	<p>Requirement rejected previously.</p> <p>Account Creation (Release 2) will provide the importer a report by filer code.</p> <p>Periodic Payment (Release 3) will provide the ability for the importer to designate brokers who can file on their behalf. In a future release a courtesy notice will be send to the importer when a non-designated filer files an entry showing their IR number.</p> <p><i>Owner:</i> Monica Crockett</p>

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ACT-006		ACE must include a contact log capability whereby significant interactions between the Trade and CBP are captured and recorded by CBP. A. The contact log must be searchable and sortable, e.g., by account, date, initiating party, person contacted. B. The trade requires the capability to record and maintain contact information in the log. Specifically, there must be a field for each recorded contact in which the Trade can enter its own after-the fact annotations or commentary.	8/1/2001	Withdrawn	2, 3, 4, A1, A2, A3, M2, M3	<p>June 29, 2009 - This requirement does not apply to M1 because carriers are not managed accounts - WITHDRAWN</p> <p>Update: 3/25/08 - BAL functionality delivered. The Accounts Committee is scheduling a meeting with the ITDS Committee to discuss communications between PGAs and the trade. Additional GIFs will follow as need. Trade will not be updating this requirement recommendation.</p> <p>Status 4/11/07: The account committee will draft a survey to identify communications needs and either revise or cancel this requirement based on survey results and what is delivered in A1 to further utilize the BAL.</p> <p>Account Creation (Release 2) provides for a contact log to capture significant interactions between the trade and CBP. The contact log is searchable by date range, keyword in the description or type. Additional enhancement to the contact log will occur in Periodic Payment (Release 3) and future releases. Periodic Payment (Release 3) provides the ability to do a search within a search, as well as the ability to search attachments. The SAL provides for associated contacts. There is not a separate field provided for the trade to enter annotations or commentary for internal purposes only. The full description field, however, could be used for additional notations.</p> <p>An enterprise level communications tool has not been selected. This requirement will be updated when additional information is available.</p> <p>GIF 216 was prepared addressing the features requested but not included in current releases. Submitted to CBP on 2/16/2006.</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p>

				<i>Owner:</i>	Monica Crockett	
ACT-010		<p>The Ability of one broker to see another filer's information: This requirement focuses around the ability for one filer to view another filer's data when providing certain services for an importer. Through ACE the importer is going to be provided with data that is inherent to his Account. This data is critical to the success of performing certain post release functions, such as Reconciliation, Drawback, Consulting, etc. The Broker Subcommittee would like the ability to get access to this data, if authorized by the importer to do so, through their portal. This would involve giving importers the ability to further define access as it relates to their data and who can access it for viable business needs.</p>	6/17/2003	Accepted	A1	<p>Update: 3/25/08 - Delivered with A1 thru cross account access</p> <p>Status 4/11/07 - In scope for A2, A3.</p> <p>1/17/07 - Cross account access will meet this requirement. With one single sign on the broker will be able to access multiple accounts based on privileges granted. Brokers will use a pick list to move between accounts.</p> <p>Currently under legal policy review by CBP.</p> <p>Cross Account access</p>

			<i>Owner:</i>	Monica Crockett		
ACT-012		<p>Broker Access Levels: The Broker Account Subcommittee feels that ACE needs to provide Accounts the ability to limit user access levels to members of their own organization. Organizations vary in size and function, so consequently, access levels to data and the ability to either view or manipulate data would be dependent upon their position within the brokerage company. This involves controlled access throughout the portal, including data.</p>	6/17/2003	Accepted	3, 4, A1,	<p>Update: 3/25/08 - Delivered in Release 4 and A1. New GIF presented by Broker Subcommittee to limit report access approved and slotted for A2.3.</p> <p>Status 4/11/07 - In scope for A1. There is no geographical information included.</p> <p>1/17/07 - The broker account tree will be changed with A1 to more accurately reflect the account structure.</p> <p>Access privileges to account data are controlled by the Account Owner. Additional access controls at the tab level will be provided in Periodic Payment (Release 3). Subject to CBP policy considerations. A clarification on the geographic need referenced in the requirement is requested from the Broker Account Subcommittee.</p>

ACT-013	842	CF 28's & 29's: This requirement involves the introduction of the CF 28, 29 and 4647 into the ACE portal. Quite often, brokers are involved in responding to the CBP's requests on CF 28s and 29s for importers. In order to do so in a timely manner, it would be vary advantageous for importers and brokers to be notified through the account portal as soon as CBP creates a CF 28 or 29. An alert message could appear on the Account's home page notifying them of a new item (potentially within the SAL). If so, SAL would also need to display the creation date or due date of the request. Also, the advent of a reminder notice as the CF 28 or 29 due date approaches, would allow importers to be even more compliant.	6/13/2003	Pending	A2.3, A2.4	<p>JANUARY 21, 2009 - THIS REQUIREMENT (CSPO-GIF-842) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.</p> <p>Update: 3/25/08 - A2.2 importers only. At the January 2007 meeting with trade brokers requested not to push forms to brokers via the portal. The Broker Account Subcommittee will be preparing a GIF requesting this capability in A2.3</p> <p>8/9/07 - Accepted in part. There will be no alert or reminder notice. Brokers would need to request the information and let CBP know the preferred method of communication.</p> <p>Currently under review. Subject to CBP policy considerations.</p> <p>Notification will be thru ABI or paper.</p>

ACT-016		ACE will notify the CBP Account Manager and/or Account Administrator and the Trade Account Owner, by either sending a message or flagging the transaction, when an unauthorized Customs Broker/Filer conducts Customs business on their behalf. Unauthorized Customs Broker/filer is defined as the importer not having granted a Power of Attorney to the broker/filer to conduct Customs business on their behalf. Thus the broker/filer is not listed in the importer's account as a designated broker.	12/10/2003	Withdrawn	A1	<p>3/25/08 - The Accounts Committee has decided that the report currently available in the portal meets the intent of this requirement and nothing further needs to be done.</p> <p>8/9/07 - CBP will not provide list on unauthorized brokers. Account owners can access data on unauthorized filers/brokers filing on their behalf via the current reporting tool. Anita Brown will discuss with Accounts committee on further action.</p> <p>Periodic Payment (Release 3) will allow the importer to designate brokers in their account. In a future release a warning message will be sent to the importer when a broker not designated in their account has filed an entry for their IR number. Importers can generate a report in Account Creation (Release 2) showing all filers who have made entry on their behalf.</p> <p>Not planned for A2. Need to confirm with CCR.</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p>

ACT-018		<p>The trade has defined the following functional needs for the Significant Activity Log (SAL). In addition the trade has identified approximately 87 SAL issues that can occur on a daily basis and for which they need greater visibility to actively monitor, resolve and effectively manage their compliance activity.</p> <p>A. The SAL needs to provide the ability to view/list/sort options by Specified SAL Sub-category. The Sub-categories are defined in the 87 issues identified and include issues like, 28's, 29's, detentions, etc.</p> <p>B. SAL functionality should allow the Account to identify the responsible account user for each category/sub-category.</p> <p>C. A new SAL should be identified to the responsible user at the time of login.</p> <p>D. The task should be able to be flagged with a specified date.</p> <p>E. One the due date has passed, the item should be found in the task list in red.</p> <p>F. The SAL should provide some indicator that the issue has been opened or read by the account.</p> <p>G. The SAL should provide data download functionality. The content of the SAL should be included in the report tool so the user can further sort data in Excel, Access or any other format defined in reports.</p> <p>H. There should be a date field in the SAL which indicates when the SAL was posted. The SAL should also include the deadline for response date, if one is legally required.</p> <p>I. The SAL should provide the ability for the user to add, change and delete additional file folders, so as to group certain SAL issues together on the portal.</p> <p>J. The SAL should provide the functionality to enable the user to customize a default view within the SAL. Customization could be selected by the following fields: category, sub-category, date posted, due date, posting party name.</p>	1/30/2004	Withdrawn	3, A1, A2, A3, M2, M3	<p>June 29, 2009 - This does not apply to M1 because carriers are not managed accounts.</p> <p>update: 3/25/08 - The Accounts Committee has complete the analysis of the results of the Communications Questionnaire and will be preparing GIFs as needed. They will also be meeting with the ITDS Committee to address PGA requests from the trade.</p> <p>Status 4/11/07 - The account committee will draft a survey to identify communications requirements and either revies or cancel this requirement based on the survey results and what is delivered in A1 to further utilize the BAL.</p> <p>GIF 216/276 was prepared addressing recommended improvements to the SAL and overall trade communication needs as discussed at the business blueprinting workshop. Submitted to CBP on 2/16/2006. Referred.</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p> <p>This requirement is being returned to the Accounts Committee for further evaluation. The communications tool to be used by ACE in further releases has not been determined. The Committee will have the opportunity to define their future needs as opposed to enhancements to current SAL functionality.</p> <p>An enterprise level communication tool is under investigation.</p> <p>Point E, F, H and I should be delivered in A2 and A3. There appears to be no new functionality in A1 for the trade.</p>

Eighteen data elements were recommended for the report.</p>	1/30/2004	Accepted in Part	A1, A2.4, A3,	<p>AUGUST 24, 2009 - THIS REQUIREMENT (CSPO-GIF -977) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW. THIS GIF COVERS ACT-023, ACT-007.4</p> <p>Update: 3/25/08 - All available except for request "A". A will be available via ABI in A2.4</p> <p>8/9/07 Item A - Data available in liquidation report Item B - Can drill down now on the entry no. to see line item detail. Item C - Message will be available Item D - If data is available from the ACE data warehouse it can be downloaded for the report.</p> <p>Timeframe for reports based on design.</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p>
				<i>Owner:</i>	Monica Crockett	
ACT-024		<p>The customs broker account portal must include discreet functionality that fully enables access, set-up, maintenance, and management of importer accounts with the exact same window, perspective, navigational, maintenance, management and report capabilities as if operating directly through the importer account portal. This access, functionality, and view must be available WITHIN the broker account portal, without a need to logoff and logon to the importer's account portal, and without the need for multiple usernames & passwords.</p> <p>*For purposes of this requirement it is understood that this in-broker-portal functionality will only be available to the broker account if the importer account owner has designated the broker as a "proxy owner" of his account. NOTE: by Proxy Owner, we are referring to the firm or company, not an individual.</p>	5/11/2004	Accepted	A1	<p>Update: 3/25/08 - Delivered with A1 with cross account access</p> <p>1/17/07 - Cross account access will allow the broker with a single sign on to access multiple accounts based on privileges granted. Brokers will use a pick list to move between accounts. They will not be required to sign off and sign back on to move between accounts.</p> <p>Preliminary approval granted depending on technical feasibility and associated cost to implement.</p> <p>Subject to CBP policy decision. A Focus Group meeting will be held with the Broker Account Subcommittee to further define business needs. (072704: Changed to L/P. SM)</p> <p>Revised September 23, 2004 to reflect Proxy Owner as the firm or company, not the individual. Subject to Technical review.</p> <p>None of the functionality described will be delivered. It conflicts with CBP security policy. Brokers will use the importer's portal (cross account access) and will need to log off and log back into their account to move from one account to another.</p>

Requirement #	GIF	TSN Requirement Description	Submission date	Status	Release (s)	Comments
ACT-025		A broker must be able to fully maintain any ACE importer account for which he has been duly empowered as Proxy Owner. In this capacity, a broker must be able to perform all maintenance and data update functions that the importer Account Owner can perform.	9/23/2004	Accepted	A1	Update: 3/25/08 - Delivered in A1 with cross account access 1/17/07 - Cross Account access will meet this requirement. With one single sign on the broker will be able to access multiple accounts based on privileges granted. Brokers will use a pick list to move between accounts. 10/13/05 - Cross Account Access
				<i>Owner:</i>	Monica Crockett	
ACT-026		A broker must be able to fully manage all aspects of any ACE importer account portal for which he has been duly empowered as Proxy Owner. In this capacity a broker must be able to perform all management functions that the importer Account Owner can perform, including but not limited to the following: perform customizing of all views; make structural additions and changes; maintain (create, update, delete) links to other accounts or sub-accounts in order to maintain account relationships across the corporate structure; set up standardized queries (as the portal functionality will allow); set up reports; set up access rights for all parties (with the exception of those of the Account Owner and with the exception of being able to designate another Proxy Account Owner; download data; manage periodic monthly statement activity; manage and maintain contacts; participate in the use of the Significant Activity Log (SAL) and in any communications interface capability incorporated into the account portal.	9/23/2004	Accepted	A1	update: 3/25/08 - Delivered with A1 via cross account access Status 4/11/07 - In scope for A1 10/13/05 Cross Account Access. Access will be determined by the privileges the importer grants.
				<i>Owner:</i>	Monica Crockett	
ACT-027		A broker must be able to initiate the set-up of an ACE Importer Account with Portal View directly with CBP on behalf of all importers for whom he has been duly authorized and empowered as importer proxy. A broker's submission of a request to set up an ACE importer account would be the first and only contact between the importer and CBP in this manner. This functionality would be available to set-up an Account with Portal View, whether or not a CF 5106 is currently on file. Again, the submission may or may not include an initial 5106, depending on whether one is already on file or not with CBP.	9/23/2004	Rejected	3	Status 4/11/07 - REJECTED Pending legal policy review. This requirement is linked to ACT 030 - Master Terms and Conditions document. There are no plans to change the current requirements that a 5106 record must exist before setting up an account with a portal view.
				<i>Owner:</i>	Monica Crockett	

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ACT-028		<p>ACE must support batch account set-up of importer Accounts with Portal View by a customs broker who has been authorized and empowered by various importers as their Proxy Account Owner. (This is similar to the transmission of a CF 5106 in today's ACE environment to put an importer of record "on file" with CBP).</p> <p>This batch functionality would be available to set-up an Account with Portal View, whether or not a CF 5106 is currently on file. Again, the submission may or may not include an initial 5106, depending on whether one is already on file or not.</p> <p>This functionality would be available for batch sizes of 1 to n and would allow for batch process and batch response.</p> <p>This functionality would be available via the broker account portal and available via all ACE-accepted EDI formats, including stand-alone XML string via the portal for uploads and downloads.</p>	9/23/2004	Rejected	3	<p>Status 4/11/07 - REJECTED ACE will not allow batch set up for portal accounts</p> <p>Pending legal policy review. This requirement is linked to ACT 030 - Master Terms and Conditions document.</p> <p>Please note this requirement implies the development of a new EDI message to accomplish the batch set-up of accounts.</p> <p>No planned EDI batch set-up of importer accounts with a portal view.</p>
				<i>Owner:</i>	Monica Crockett	
ACT-029		<p>A broker must be able to participate in interactive communications with CBP via the web portal. Such communications must include (but are not limited to): Action plans and action items; interactive use of the Significant Activity Log (SAL); responses to CF 28s, CF 29s, entry summary rejects, marking notices, redelivery notices, protests, SILs, PEAS, daily & periodic monthly statement, duty drawback, CBP issued bills, etc. The broker Proxy Owner must be able to participate in the use of any communication interface capability incorporated into the account portal, as if it is the importer Account Owner responding directly to CBP.</p>	9/23/2004	Withdrawn	A1, A2, A3	<p>Update: 3/25/08 - Should be possible by A2.4</p> <p>Status 4/11/07 - The accounts committee will draft a survey to identify communication needs and either revise the requirement (prepare a GIF) or cancel the requirement based on the survey results and what is delivered in A1 to further utilize the BAL</p> <p>An enterprise level communication tool is still under investigation.</p> <p>GIF 216 was prepared addressing overall communication needs including those identified by the trade as part of the business blueprinting workshop. Submitted to CBP on 2/16/2006. Referred.</p>
				<i>Owner:</i>	Monica Crockett	
ACT-030		<p>A broker must be able to enter into a "master" Terms and Conditions agreement on behalf of all importers for whom he has been duly authorized and empowered as importer proxy. A broker's submission of a request to set up an ACE importer Account with Portal View would signal the acceptance of the Terms and Conditions on behalf of the importer.</p>	9/23/2004	Withdrawn	3	<p>Status 4/11/07 - This requirement will not be needed when the Terms & Conditions Federal Register Notice is issued .</p> <p>Pending CBP Legal policy review</p>

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ACT-031		<p>The Portal view of a customs broker's ACE account will include the records and transactions of hundreds and even thousands of importers of record. In addition, when a broker has been designated as a Proxy Account Owner of an importer's ACE Account with Portal View, the broker will have the need to specify and navigate to that IR's record (and/or hyperlink, etc.) from within [the broker's] own portal view, in order to then "jump" to a fully functional window of that IR's ACE Account Portal view.</p> <p>With hundreds or even thousands of IR numbers, it is not practical to memorize IR numbers and suffixes. These need to be displayed by ascending and descending alpha-numerically by IR number AND by ascending and descending alpha-numerically by IR name. The records should be should always be displayed with BOTH the IR name and the IR number (with any suffix) so that the portal user can readily verify that he is selecting the appropriate IR record.</p> <p>Due to the overwhelming volume of IR records within a broker's portal view, methods for "shortcut" navigation to the correct IR record should be employed. These should include, but not limited to, such display navigation shortcuts as:</p> <p> A B C D X Y Z </p> <p>Other methods such as the following should also be considered:</p> <ul style="list-style-type: none"> •Stepped or progressive search •Tabbed, indented or categorical GUI's •Partial alphabetical or numeric keys •Fuzzy logic - sounds like or similar to key word <p>The indexing that is needed in the ACE Portal in order to facilitate the selecting and sorting (ascending and descending, alpha-numeric, other) of records, reports, and queries are, but not limited to:</p> <ol style="list-style-type: none"> a) IR numbers and names b) Filer Codes c) District Port of Processing (DDPP) d) Branch designation (for Filers who uses Branch Designation) e) User-specified "regional", or "other", groupings of the above <p>Transactional indexing requirements should include but are not limited to:</p>	9/23/2004	Accepted	A1	<p>pdate: 3/25/08 - Delivered in A1 thru cross account access as well as via ACE reports that allow a broker to sort importer information.</p> <p>Status 4/11/07 - Verify if A1 delivery meets broker subcommittee requirements. If not, subcommittee needs to prepare GIFs accordingly</p> <p>GIF 215 submitted on February 16, 2006. Being looked at by the ESAR Account Management team for A1. Cross Account Access, which is part of the A1, will include a single sign on for the user as well as the ability to use a pick list to move from account to account, based on privileges granted by the other Trade Account Owner.</p> <p>A GIF has been prepared addressing the trade's need for 'shortcut' navigation tools to access various accounts who have granted access to their portal.</p> <p>Subject to Technical feasibility and associated costs. Design may be other than specific recommendations.</p> <p>Need to meet with the portal design team. Cross account access. All aspects of the requirement may not be met.</p>

ACT-032		When a broker has been appointed as Proxy Account Owner for an Importer's ACE Account, he will have the discreet, authorized ability to "hyperlink" (from within the broker portal view) directly into the specified Importer's ACE Account with Portal View. This must be accomplished without the need for additional logins and passwords and without the need to logout of his own portal view. Once finished inside the portal view of the Importer's account, he must be able to effect "return" to his own [broker] portal view, again without the need to logout and re-login to the broker portal view.	9/23/2004	Accepted	A1	Update: 3/25/08 - Delivered in A1 with cross account access 1/17/07 - Thru cross account access, the broker will be able to access multiple accounts based on privileges granted with one single sign on. Brokers will use a pick list to move between accounts. Logging off and logging back on will no longer be necessary. Preliminary approval granted depending on technical feasibility and associated cost to implement. No hyperlink from within the broker's portal will be available. Cross account access. The broker will be required to log out of one account and log in again to move from account to account. This is a security requirement.
			<i>Owner:</i>	Monica Crockett		
ACT-033	285	The current 20,000 report line limit renders many of the reports unusable by the trade. This capacity needs to be greatly increased to allow large to mid size Account to run transactional reports and Quick Views. If reports are too large in size for the ACE Secure Data Portal to accommodate, then another mechanism needs to be provided whereby the trade and CBP can have access to the information.	9/24/2004	Accepted	A1	AUGUST 7, 2009 - THIS REQUIREMENT (CSPO-GIF-285) WAS DELIVERED AS PART OF ECP_CR_1748 update: 3/25/08 - Delivered. Current limitations are 200,000 for regular reports and 1,000,000 for the authorized data extract Status 4/11/07 - the new reporting tool will have a 240,000 line limit. A GIF has been prepared addressing the current report line limitation and the fact that another mechanism needs to be provided to access transactional data (submitted to CBP 1/9/2006). CR 1687 1/17/07 - A CR has been created to raise the limit above the current 20,000. If the download capabilities currently be explored are delivered in A1, then this limit will not be as critical. Reporting tool is still under investigation.

ACT-828	959	<p>EXTRACTS TO SURETIES (AUTOMATED SURETY INTERFACE) DATA DOWNLOAD.</p> <p>The trade is requesting capability through the ACE Portal and an EDI download to retrieve information about entries and claims to sureties that result from bonds they issue, similar to those currently provided. The sureties currently receive nightly downloads, through the Automated Surety Interface (ASI) in ACS, of entry information, including liquidation for all entries on which the surety is obligated.</p> <p>The sureties require:</p> <ul style="list-style-type: none"> • All existing data elements within each data file to remain the same (current and new data elements attached). • Information on entries covered by both single transaction bonds and continuous bonds. • Coordination with the eBond process, including providing information about single transaction bonds and the related entry information. (Coordinate with "eBond Concept" CSPO GIF 692). • Information must be provided at release, summary and any time there is an update to any of the data elements. • System to recognize that more than one surety may be obligated on the entry and provide information to all the sureties that are obligated. • If a surety is no longer obligated on an entry, it should be notified. If it is found that a claim was issued to the wrong surety, notification to the "wrong" surety should be provided that they are no longer responsible for that claim. For instance, when an entry is submitted with the wrong surety code, the wrong surety receives entry information. When later the surety code is corrected, that wrong surety stops receiving entry information and has no way to know what has happened on the entry to close its files. Therefore, the trade is requesting if a surety starts to received data regarding an entry, but it is later found that it will not continue to received this data, the surety should be notified. • Any changes which may limit a bond's liability under that entry, such as filing a superseding bond, must be communicated in the entry download information. • Changing the current weekly download of Fines, Penalty and Forfeiture cases and other bills (Supplemental Duties, etc) to daily. This consists of information regarding bills or cases which have been issued and for which the surety may be obligated. • Information on any new claim system, such as those resulting from the debit voucher system, should also include a surety extract feature. 	8/7/2009	Pending	A2.3	<p>FEBRUARY 3, 2011- This GIF was determined to be not in scope for cargo release. 		<p>• Continued type of access to the Entry Summary Query and Importer/Bond Query in ACS. The sureties need to have access to all information they are entitled to see when they are entitled to receive it.</p> <p>The current data elements are in the attached document (ASI Layout). The new data elements the surety requires are in the attached spreadsheet which contains seven worksheets within it (ASI New Data Elements 1-2008). As ACE develops and additional data elements are defined, this request will be updated.</p>				
						<i>Owner:</i> Monica Crockett
ACT-829	960	<p>SUBMITTING ITAR EXEMPTIONS VIA ACE. The trade requests the ability to transmit International Trade in Arms Regulations (ITAR) exemptions via ACE cargo release and entry summary. This information should then be available to filers of Shippers Export Declarations when they reference the import entry number. Currently the broker is required to override a paperless release and submit documents to the port of entry to register the import exemption. If the goods are subsequently exported, the shipper must prove that the goods were in the US via the exemption by submitting copies of the import paperwork. This manual processing causes delays and unnecessary work for both the trade and CBP.</p> <p>The electronic submission of the exemption code would allow CBP to apply automated targeting to these data points. This would improve security and tracking of these items for both the importation and exportation of the goods.</p> <p>A list of the commonly used import exemptions is being provided for convenience. This list may not be all inclusive. The trade would like the ability to transmit the code only. For example, 22CFR123.4a1. CBP should allow for the field to be large enough to accept the correct format. Some of the regulations are case sensitive as shown above. A lower case "A" may appear as an upper case letter, and CBP will need to allow slight deviations from the actual citation due to the limitations. Also, the format may or may not include the parenthesis () separating the fields. If included, additional field space will need to be allocated.</p>	8/7/2009	Pending	M2.3	AUGUST 7, 2009 - THIS REQUIREMENT (CSPO-GIF-960) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.

ACT-830	979	<p>SURETY ACCOUNT PORTAL BOND QUERY OPTIONS: Query capabilities are important as any one surety can have thousands of bonds on file with CBP. The bond tab in the surety portal currently only allows the surety to query a bond by bond number, activity code, and bond status. The portal should allow for querying by importer of record number, bond type (continuous vs single), principal name, bond effective date, filer code and agent ACE ID. In addition, the portal should allow for querying by a date range and by terminated and active bonds. Today large sureties with ACE Portal accounts are unable to view all of their bonds because of an error when bonds are being loaded for their account after opening the bond page. While there is a search capability that was delivered for CBP and the sureties, that capability for the trade only searches the first 2000 bonds thus rendering the search capability useless for large sureties. In the future, when single transaction bonds are in the system, the portal should also allow for querying by entry number and entry type.</p>	8/18/2009	Pending CBP L/P Input	A2.4,	<p>SEPTEMBER 16, 2011 - This requirement is pending CBP L/P review for cargo release. This requirement is related to the electronic single transaction bond process.</p> <p>MAY 4, 2011 - This GIF was accepted as in scope for cargo release. Still listed in "Review" status in Dimensions.</p> <p>JANUARY 7, 2011 - This GIF was updated and submitted to CBP Change Control Board (CCB) review to cover searching for STBs by entry number and Importer Record number as part of the cargo release revalidation effort.</p> <p>AUGUST 18, 2009 - THIS REQUIREMENT (CSPO-GIF-979) IS PENDING CBP CHANGE CONTROL BOARD REVIEW.</p>

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ACT-837	1099	<p>ABILITY TO FILE A PSC THROUGH THE ACE PORTAL: CBP has delivered the ability for the broker and self filer to file post summary corrections via ABI for ACE entry summaries. However, the ability for the importer to make their own corrections to their entry summaries has been taken away since CBP will no longer accept paper Post Entry Amendments (PEA) from the importer if the entry summary was filed in ACE. Many importers both large and small file their own PEAs today. This is a means of ensuring compliance from their perspective. Importers are therefore requesting that ability to maintain control over their own corrections by being provided the means to make post summary (pre-liquidation) amendments and corrections to the entry summary data initially filed and accepted by CBP through the ACE Portal.</p> <p>The ACE Portal should provide the ability for the importer and the broker or a third party designee to correct an individual entry summary through the ACE Portal.</p> <p>Notifications:</p> <ul style="list-style-type: none"> •When a PSC is made through the portal, an initial system generated acceptance or rejection message should be displayed in the ACE Portal once CBP has edited the entry summary. The acceptance message should include a date. If the correction is rejected the message should include a date and the reject reason. •The filer/broker associated with the entry summary should receive a notification through ABI or the portal when a PSC is received from the importer. •When a broker files a PSC on behalf of the importer, the importer should be notified through the ACE Portal that a correction has been made on their behalf. The same information that was provided to the filer through ABI should be included in the portal notification to the importer. •If a PSC is filed by a third party, then both the importer and the broker should be notified of the change. <p>Portal Functionality:</p> <ul style="list-style-type: none"> •All functionality available to the importer through the Portal must be available to the broker through their ACE portal account. •When entering a correction, users should be able to enter an entry number and the most recent version of the entry summary displays with all line items shown for the user to input their corrections. •Each PSC will create a new version of the Entry Summary or, if there was a previous PSC, it will replace that. Corrections will be subject to CBP validations upon submission. Note: If trade corrects the HTS number on a line item, they will be 	10/30/2009	Pending	A2.3	<p>NOVEMBER 10, 2011 - This GIF was revised and resubmitted to the CBP Change Control Board for review. New text is included.</p> <p>OCTOBER 30, 2009 - THIS REQUIREMENT (CSPO-GIF-1099) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.</p>

responsible for making any additional changes needed to duty, taxes and fees both at the line and header level.

- If a change to duty is posed and a change to fees is not but fees should have been adjusted as well, an error message will display to the user (not display when the MPF is at max).
- Users need to be able to view the version number associated with the entry summary through the ACE portal.
- Users should receive an initial system generated "Accepted CBP Status notification" or a "Rejected notification" through the ACE portal once CBP has successfully edited the entry summary. The acceptance or rejection notice should include a date and the reason for the rejection. The initial acceptance of the PSC should start the clock for final approval of the PSC by CBP.
- When a post summary correction is accepted through the ACE portal, the source of the correction (portal or ABI) needs to be captured such that the party and user making the updates can be identified. This indicator likewise will need to be available in any post summary correction report.
- The importer will be able to make multiple PSCs prior to liquidation. Trade will have 270 days from the entry summary date to file the post summary correction, but not less than 20 days prior to liquidation.
- Trade would like the ability to request an extension of liquidation through the ACE portal.
- Corrections through the ACE Portal is to the line or lines since that might impact the fees for the entire entry summary, the changes should be processed as a complete replace of the entry summary.
- The ACE Portal should provide the ability for a filer other than the PSC filer to be able to make a correction to the entry summary through the ACE Portal, as designated/authorized by the importer.

Types of Corrections:

- PSCs should be allowed for all types of corrections. Users should be able to enter the individual correction (s) at the header or line level on the entry summary and ACE should treat the corrected summary as a full replace.
 - The trade would also like the ability to make corrections to other governmental agency requirements, as agencies participate in PGA filing. In addition, if the PGA is not a filing participant but is a DIS participant, we would like the ability to PSC a DIS-identified form.
- Security/Access Requirements:
- The Trade Account Owner should be able to designate who can make post summary corrections

on behalf of the Account. Trade requests user access should be defined as “No Access”, “Read Only Access” and “Full Access.”

- The Trade Account Owner should be able to designate PSC capability by account type to allow for a broker, consultant or attorney to file on their behalf.
- When a user is removed from portal access, ACE should capture the expiration date and display the field under “AllPersons.” This would allow the TAO to monitor, limit, and reauthorize access with greater ease due to personnel changes, vendor consolidations, etc.
- The portal should prevent more than one user from editing an entry summary at the same time and display an “entry summary under edit” message.
- When submitting a post summary correction through the ACE portal, trade requests an “Are you sure” message appear after hitting “Submit” such that the user would need to confirm they want to submit the correction.
-

Extension of Liquidation

- Since a post summary correction beyond 270 days and within 20 days must include a request to extend liquidation, the ACE portal needs to provide the ability for trade to request liquidation be extended.

Comparing Different Versions of the Entry Summary

- Trade is requesting the ability to view through the ACE Portal the entry summary before and after the post summary correction. This could be accomplished through some sort of a comparison view where the user could see version 1 and version 2 displayed simultaneously.
- The other option would be to have a report that would display multiple versions of the entry summary.

ACT-GIF 226	268	The trade needs the ability to have a backup for the account owner with all of the privileges of the account owner. This could be accomplished adding a radio button to the current assignment of access privileges under the Manage People tab that would allow the account owner to assign full privileges to his/her proxy as a backup or by creating a new user role. This would allow the backup for the account owner to not only add IR numbers but to be able to assign those IR numbers to users without the account owner having to first assign them to the backup or super proxy.	3/14/2006	Rejected	A1	Update: 3/25/08 - Upon further review, GIF was rejected by CBP 1/17/07 - CBP has approved the GIF. (Current GIF#268) GIF sent to CBP on 3/14/2006. Reviewed by the PBE Board on 4/4/2206. 1/29/08 - Closed - Because of all of the work to be done, this is not viewed as something essential.
		<i>Owner:</i>	Monica Crockett			
ACT-GIF 227	267	Current company names in the account tree reflect the name shown on the 5106. Thus the same company name can appear multiple times in a large account. Accounts need to ability to enter an alternate name which will appear in the account tree. The Account tree structure needs to be revised to allow the trade to enter an alternate name in the account tree. This will eliminate duplicate names from appearing in the account tree.	3/14/2006	Rejected	A1	3/25/08 - Subsequently rejected by CCB 1/17/07 - This is included in a change request for A2. (Current GIF#267) GIF sent to CBP on 3/14/2006. Reviewed by PBE Board on 4/4/2006. 1/29/08 - rejected. Because of all of the work to be done this is now view as essential but a nice to have.

ACT-GIF 243	261	If there is an Office Code other than spaces, the ABE record for the Filer Code + Port Code + Office Code never indicates they are a periodic monthly statement participant. This is because as noted above, when ACE sends periodic monthly statement participant messages to ACS only the Filer Code and Port Code are used. The Office Code is not used in ACE for periodic monthly statement participation. If the Office Code for a RLF Daily Statement is spaces there are no problems with processing PMS entry summaries. It is only with statements that have an Office Code other than spaces that the problem exists. Change the necessary programs to allow periodic monthly statement to work with remote location filing and an office code. This is critical and cannot wait for the A2 release in 2008.	6/28/2006	Replaced	A2.3	SEPTEMBER 10, 2009 - REPLACED BY ACT-831 (CSPO-GIF-980) New GIF number = CSPO-GIF-261 - REJECTED 1/8/07- THIS GIF WAS REJECTED BY THE CCB BECAUSE THE FUNCTIONALITY WILL BE IMPLEMENTED IN A2 AND SHOULD NOT BE IMPLEMENTED IN ACS. GIF presented to Production Baseline Enhancement Board on July 11, 2006. GIF is being evaluated to determine the number of entry summaries filed RLF where an office code is used. Once this evaluation is completed, the GIF will be discussed again. 1/17/07 - CBP has cancelled this GIF because with the redesing planned for A2, this will not be an issue. (Current GIF#261)

ACT-GIF 245	260	<p>Currently there is no way to distinguish between entries that were completed and entries that were cancelled when running cargo entry reports and filtering by create date or entry date. If an entry is cancelled for what ever reason, it is not removed from ACE. Thus if you run any cargo entry detail reports those cancelled entries will be part of the report. When running entry summary detail reports, if you filter by create date there is not way to exclude cancelled entry summaries from the report. Add a field with a flag code for cancelled entries such that those entries/entry summaries can be eliminated by the user when running ACE cargo entry and entry summary detail reports. This flag should be available on all entry and entry summary detail reports as a filter before launching the report. This would be better than having to run the report and then filter for either cancelled or not cancelled entries.</p> <p>It would also be advantageous to be able to simply run a cancelled entry/entry summary report for a specified date range</p>	7/20/2006	Pending	A2.3	<p>SEPTEMBER 10, 2009- THIS REQUIREMENT HAS BEEN ACCEPTED BY CBP BUT NOT YET DELIVERED.</p> <p>Update: 4/20/09 - Committee is checking A2.2 ad hoc report capabilities for ACE entry summaries to see if a cancelled entry status is shown.</p> <p>Update: 3/25/08 - A2.3</p> <p>News GIF number = CSPO-GIF-260 - ACCEPTED 1/10/07</p> <p>This GIF was presented to the Production Baseline Enhancement Board on July 24, 2006.</p> <p>1/17/07 - CBP has approved this GIF but there is no corresponding change request with money.. ACT-GIF 246	259	AMS provides data that is not presently incorporated in the ACE Reports/Cargo Exam data repository, e.g. APHIS, other government agency, Customs holds and VACIS exams. The information is classified by the trade as "cargo exam" data. The incorporation of such data, in addition to performing a refresh of cargo exam data nightly, will provide the trade with visibility of ALL cargo exams which we can then use to define predictability for our own import process. This information is only available through our Customs Account Manager today. The trade recommends adding the following fields to the cargo exam report: 1) EXAM TYPE (examples of exam type would be: Manifest Hold, VACIS exam, Stratified Compliance, Compliance Measurement, Intensive, APHIS, Agriculture Hold, etc.) 2) BILL OF LADING NUMBER 3) CONTAINER NUMBER 4) ARRIVAL DATE 5) RELEASE DATE. The trade recommends updating cargo exam statistics nightly.	7/20/2006	Pending CBP HQ Input	CR	<p>SEPTEMBER 16, 2011 - This requirement is pending CBP Trade Modernization & ACE Coordination (TMAC) review. Comment: There are two parts to this comment. The first deals with incorporating specific AMS information in the ACE reports /cargo exam data repository requires a policy review. The second aspect recommends adding information fields into the cargo exam reports (exam type, bill of lading number, container number, etc.) warrants further discussion during the next phase of development. Additionally the timing of cargo exam statistics updates also warrants further discussion during the next phase of development.</p> <p>JANUARY 7, 2011-This GIF was updated and submitted for CBP Change Control Board (CCB) review as part of the cargo release revalidation effort.</p> <p>SEPTEMBER 12, 2006 - THIS REQUIREMENT (CSPO-GIF-259) IS PENDING CBP CHANGE CONTROL BOARD REVIEW.</p> <p>4/11/07 - Current GIF number = CSPO-GIF-259 = In review by CCR team.</p> <p>This GIF was presented to the Production Baseline Enhancement Board on July 24, 2006. <i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ACT-GIF 637	637	<p>Prior to A1 an importer with multiple IR numbers in their account could order the IR numbers numerically in the box for IR#s available to be assigned (left hand box under Manage Access/User Access) by moving an IR from that box to the assigned box (right hand box)and then back. At that point, the left hand box organizes itself in numerical order for easy in assigning access to IR #s. That capability was lost with the A1 drop. This makes it extremely difficult for the Trade Account Owner or Proxy to locate from a long list of IR#s or port codes which they need to assign. The IR numbers or ports in the box on the left do not appear in any logical order; by that I mean they do not match the order of the IR numbers or port codes in the account list. Once you locate the IR numbers or port code and move them to the box on the right, they appear in the order they were moved. It is difficult to check if a particular IR or port has been assigned without going thru the entire contents of the box. If they were arranged numerically, it would be easier to manage.</p>	11/15/2007	Accepted	A1	<p>NOVEMBER 26, 2009 - WITHDRAWN IN CCB. WILL BE IMPLEMENTED AS PTR 20776.</p> <p>Update: 3/25/08 - Scheduled for April 08</p> <p>1/29/08 - PTR already created for trouble ticket opened. GIF no needed to address issue.</p>

ACT-GIF 664	1036	<p>The functionality delivered with ESAR A1 does not allow the mid to large size broker to take advantage of using the ACE Portal to meet their 19 CFR 111 requirements. On average it takes 20 minutes to manually enter information on one employee. Additionally there is no copy paste functionality to help reduce the time it takes to enter employee information. To fully take advantage of the new functionality delivered, the trade is requesting the ability to upload employee information from an Excel spreadsheet into the ACE portal. All data elements currently required would be included in the spreadsheet. In addition, the trade is recommending that the actual update date should also be captured. The update date would allow CBP to know how current the information is. Trade would like to receive a confirmation that the upload worked correctly to ensure they remain compliant with regulations. The message should confirm the number of records received. If for some reason the upload is not successful, error messages should be returned that are understandable. The option to upload an entire file each month should be available as well as the ability to upload changes only. While the trade would like to start with an Excel spreadsheet as a means of providing employee information, ultimately the trade would like to have an EDI option as well.</p>	3/1/2008	Pending	A2.4	<p>SEPTEMBER 10, 2009 - THIS REQUIREMENT (CSPO-GIF-1036) WAS RESUBMITTED FOR CBP CHANGE CONTROL BOARD (CCB) REVIEW TO ENSURE THAT THE FUNCTIONALITY WILL BE DELIVERED</p> <p>MAY 19, 2009 - THIS REQUIREMENT (CSPO GIF 664) IS LISTED AS "CLOSED" AND "DEFERRED" IN THE DIMENSIONS DATABASE. THE CLOSED STATUS LISTED THE FOLLOWING CONDITION " Will be included in A2.4". THE DEFERRED STATUS LISTED THE FOLLOWING CONDITION "Lower priority; doesn't need to be completed at the present time".</p> <p>Update: 03/25/08 - Approved and deferred until A2.4</p>	
			<i>Owner:</i>	Monica Crockett			
ACT-GIF 665	665	<p>The Manage Access tab should be used for all aspects of an individuals' access, information, associations, etc within the ACE portal. This would include the ability to associate a person to a specific port for reporting requirements, license qualification for brokers at all levels, and all designations (licensed) etc. In essence, the manage access tab would be used as a database to feed all the other tabs.</p> <p>The current functionality requires identical input of data in two separate areas. This is redundant and results in a loss of productivity. The original vision was to have a single entry point of data for all information with regards to people.</p>	3/1/2008	Pending	A2.4	<p>MAY 19, 2009 - THIS REQUIREMENT (CSPO GIF 665) WAS DEFERRED BY THE CCB ON MARCH 19, 2008 WITH THE FOLLOWING CONDITIONS "Lower priority; doesn't need to be completed at the present time".</p> <p>Update 3/25/2008 - Approved and deferred until A2.4</p>

ACT-GIF 707	707	<p>The current delivery of the Authorized Data Extract (ADE) allows the trade to access currently existing reports in a way that allows for more data to be pulled at one time and that allows the user to obtain the data in a .CSV format so that it can be analyzed offline from ACE. Each of the current data downloads cover a portion of the entry/entry summary process. In separate downloads, the trade can obtain the following information: entry summary data, ADD/CVD information, entry processing (cargo release data), exam information, team review results, Accounts Receivable information, and AR Aged information. The trade had requested, in the past, to get all of this data in a single download, so that the entire history of an entry could be seen at the same time. It has been proposed that these separate downloads can be somehow tied to one another, by the trade, in order to see that history. However, since these separate downloads have separate filters (some use release date, some use summary date as an example), and each dataset uses different keys in the results. Some downloads are at a detail level and some are at a summary level. So, it is not possible for the trade to align these separate downloads into one complete history of a single entry, because the data periods may or may not align as it is currently designed.</p> <p>It is the request of the trade that ACE align this data as appropriate so that the trade can obtain a complete import life cycle of the transactions filed with CBP in a single data download (as is received today in the ITRAC data download). While we understand that the data mart has been designed to support these particular reports for efficiency, it is imperative that the trade be able to trace a transaction throughout the data in a single download. This is not possible in the current delivery of ADE. This request data download may not be support by the existing data views, but it can be managed and optimized in a new data view in the data mart.</p>	4/26/2008	Pending CBP HQ Input	A2.3	<p>SEPTEMBER 16, 2011 - This requirement is pending CBP TMAC review for cargo release. Much of the information requested falls outside the scope of cargo release. However, all data that will be housed in the data warehouse will be available to query for authorized users.</p> <p>JANUARY 7, 2011-This GIF was updated and submitted for CBP Change Control Board (CCB) review as part of the cargo release revalidation effort.</p> <p>MAY 19, 2009 - THIS REQUIREMENT (CSPO GIF 707) WAS DEFERRED BY CPB CCB ON MAY 8, 2008 WITH THE FOLLOWING CONDITION "Meeting will be held to discuss in further detail. GIF will be brought back to a future CSPO CCB".</p> <p>Update: 4/20/2009 - Submitted to CBP for review</p>

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ACT-GIF 823	823	<p>SURETY ACCESS TO CARRIER BOND AUTHORIZATION TABLE IN M1: For more than a decade, custodial entities that use the deployed CBP Automated Manifest System (AMS) have called for additional system validations to ensure that their CBP301 Activity code 2 bonded carrier bonds were not improperly invoked on CF-7512 Transportation Manifests or via the electronic equivalent in AMS and ABI "QP". The bonded carrier in whose name the CBP301 is issued remains liable for the safe and timely delivery of the bonded cargo. The new custodial bond validation routine in M2 will provide an additional firewall to ensure that only the entities known to and approved by the bond holder are using the custodial bond of the bond holder. In M1, the bonded carrier will maintain a reference table in ACE of third party users authorized to obligate his bond. CBP will not allow third party users to obligate his bond unless authority to do so is reflected in the reference table. The third party user is identified in the table by SCAC number, IRS number, name and port code. The bond owner will be able to place an expiration date on the port authorization record to terminate the specific authorization on a specific date.</p> <p>The surety should have the ability to view the reference table in ACE for Activity Code 2 bonds which the surety underwrites. This could be a new element in the bond tab of the surety portal which would allow the surety to view the authorized users on the Activity Code 2 bond as well as all additional specifications for each third party user (i.e., IRS number, name, SCAC code, port code, expiration dates). Specifically, the surety needs to see the "list of ports option" and the "expiry option".</p>	11/19/2008	Rejected	CR	<p>FEBRUARY 3, 2011 - This GIF was determined to be not in scope for cargo release. ACT-GIF 657	657	<p>With A1 implementation, brokers are now able to input and view data related to their 19 CFR 111 reporting responsibilities, for instance, the reporting of broker employees and employee information such as social security number, home address, previous employment history, etc.</p> <p>Brokers need to be able to restrict access to this personal data in such a manner that only certain of their employees can edit or view. Currently, access can be denied a user by completely removing that user's access to the Accounts tab. However, any user that has permission to run reports can run any of the newly created reports found in the "Public Folders" under "Account Management"/"Broker Permits and Employees" sub-folder. The ability must exist to allow users to run reports such as those found in the "Aggregate Reports", "Detail Reports", and "Quick Views" sub-folders, while restricting that same user from "Broker Permits and Employees" reports which contain confidential personal information.</p> <p>One way to do this would be to allow the Trade Account Owner or the Proxy to assign access privileges to the various report folders (i.e. Account Management folder, Account Revenue folder, Personnel Records folder, etc) in lieu of just being able to grant access to the Reports Tab. See attached illustration. This would ensure the privacy and confidentiality of personnel reports for brokers, cartmen, lightermen, warehouses and in the future foreign trade zones. It would also address an earlier recommendation that access to Account Revenue reports be restricted to those with a need to know the financial information in the company.</p>	2/25/2008	Pending	A2.3, A2.4	<p>MAY 19, 2009 - THIS REQUIREMENT WAS ACCEPTED BY THE CBP CCB ON MARCH 12, 2008.</p> <p>Update: 3/25/08 - Approved but with a low priority</p>

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ACT-GIF-721	721	<p>PROXY TRADE ACCOUNT OWNER: With ESAR A2.2, importers will have the ability to elect to use the ACE Portal as their means of communication for such CBP forms as 28s, 29s, and 4647s when the entry summary is filed using the AE record identifier. These forms will appear in the Task List for authorized trade users to respond to within the designated time frame. It therefore becomes imperative for the Trade Account Owner to have a true backup to ensure compliance with CBP rules and regulations. The Accounts Committee is recommending the creation of a new trade user role, Proxy Trade Account Owner. The Proxy Trade Account Owner would serve as the back up for the TAO and would have all the same privileges the TAO has with the exception of being able to create another Proxy Trade Account Owner. The Proxy Trade Account Owner by default would have access to all IR numbers in the account, all port codes, all SCAC codes, all surety codes, etc. They would be notified as the TAO is when new IR numbers, SCACs, etc. are added to the account. In addition, the Proxy Trade Account Owner, like the TAO does today, would be able to assign IR numbers, port codes, SCACs, etc. to proxies and trade users. Although a proxy TAO today has almost all of the abilities of a TAO, what they don't have, which the Proxy Trade Account Owner would have is, once an identifier/account has been added to the organization tree, to automatically have access to that account, run reports, manage access, etc. to that account. Each account would be able to designate one or two Proxy Trade Account Owners. Currently the proxy may add an identifier/account to the organizational tree, but they do not have access until the TAO give them access. This means that only when the TAO is available to grant the proxy access can the proxy or any trade account user get access to the new account. If the TAO is on vacation, out of the country on business, on maternity leave, etc. no action can be taken on a new account until the TAO gives access to a proxy or user. The trade views the Proxy TAO as an intricate part of the business continuity program. Failure to have an option for emergencies, contingencies, disasters is detrimental to managing their portal account. Unfortunately the current workaround is "password sharing" by the TAO. TAO's do NOT approve of "password sharing" but find no alternative currently. This GIF applies to all Trade Account types.</p>	5/23/2008	Pending	A2.3	MAY 28, 2008 - THIS REQUIREMENT (CSPO-GIF-721) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW

BUS-001-HL		<p>Pending a decision made at the June 2004 Plenary Session, and documented in the Transition/TSIS Meeting Report, dated June 30, 2004, this requirement has been revised to reflect the following: "Allow for the ability to send pictures to reference an entry or an account, where necessary."</p> <p>Allow for the ability to send pictures to reference an entry or an account, where necessary. (revised as of 7/26/2004, pending decision reached at the June 2004, Plenary Session. Decision documented in the Transition_TSIS Committee Meeting Report, dated June 30, 2004)</p> <p>This requirement was formerly as follows: Applying imaging technology to support referencing scanned 3D images of merchandise and/or cargo contents.</p> <p>(This is a PR and ACE Technical Team issue) (This requirement should also pertain to entry summary)</p>	5/15/2001	Withdrawn	A2.3	<p>4/27/09: This requirement has been withdrawn: it has been overtaken by events (AST White Paper on EDI Imaging); formerly referred to as GIF 200</p> <p>Status: 03/26/2008 - ESAR review confirms status as accepted.</p> <p>8/9/07 - Images of documents will be accepted in ACE.</p> <p>The creation of an online database of images as referred to within the requirement recommendation needs to be further reviewed. The benefit of having source a resource available is apparent, however, the feasibility of maintaining such an account specific database needs to be discussed further. A more feasible approach for handling this data may be on a case by case basis through the use of a communication tool, such as the SAL, etc. Key to the process is the receipt and use of an image to expedite the clearance process with minimal damage to the cargo.</p> <p>This requirement recommendation has been revised to reflect the following: "Allow for the ability to send pictures to reference an entry or an account, where necessary" (this revision was submitted to CBP on 9/18/2004)</p> <p>BUS-001, BUS-002, and INT-3 have been combined and replaced by GIF 200 (submitted to CBP 1/9/2006). The GIF was drafted to recommend the imaging of scanned documents. STATUS of GIF 200: Withdrawn by the Committee on 2/27/06: CBP has already decided to approve the imaging of scanned documents.</p>

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ENT-003	690	<p>Release: Implement Importer Activity Summary Statement (IASS) to provide an option for aggregate filing of statistical and revenue data for multiple releases on a monthly basis.</p> <p>A. The IASS will consist of "reconfigured entries", i.e., entries filed on an IASS which substitute for all or part of an importer's entries. In general, reconfigured entries will each contain rolled-up data, aggregating values and quantities of common elements such as multiple imports of goods with the same tariff number. In any case, the reconfigured entry will be a legal entity for purposes of finality and for purposes of satisfying the requirement that summary information be filed (e.g., The summary declaration for a month) for filers who use it instead of individual entry summaries.</p> <p>B. If Customs needs to extend for reasons allowed by law (i.e., additional information is needed from the importer/filer), the entire IASS (all reconfigured entries filed on an IASS) should not be extended. Rather, either via extension or a new reconciliation requested by Customs, only those reconfigured entries on the IASS with respect to which it has insufficient information to should remain open.</p> <p>B. Multiple refunds per IASS must be allowed. C. Multiple IASS's can be filed for a month. D. Importers need the flexibility to structure the IASS in a manner that best comports with their business process.</p>	6/21/2001	Pending	A3	<p>July 14, 2009: THIS REQUIREMENT (GIF 690) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW. ENT 003 and all of its subparts have been incorporated into one requirement (that is, GIF 690). Additionally, this requirement incorporates by reference, the following: IASS White Paper; ENT 004 (CSPO GIF 922); ENT 005 (CSPO GIF 923); ENT 006 (CSPO GIF 921); ENT 010 (CSPO GIF 924); ENT 016 (CSPO GIF 925); ENT 017 (CSPO GIF 926); ENT 039 (CSPO GIF 915)</p> <p>3/18/08: CSPO-GIF-690</p> <p>3/6/08: This requirement has been transferred to a GIF and is with the Committee for review. GIF 003 includes ENT 003.1 and ENT 003.2</p> <p>1/25/08 All IASS requirements are to be reviewed by the IASS subcommittee</p> <p>8/9/07 - ALL IASS AND RECONFIGURED ENTRY REQUIREMENTS NEED TO BE SUBMITTED AS SEPARATE GIFS.</p> <p>Subject to CBP policy determination and possible statutory and regulatory changes. This requirement recommendation is based on the IASS being the legal entity and thus needs to be re-written. The requirement is being returned to the Entry Committee for incorporation in one comprehensive requirement addressing IASS.</p> <p>Revised 9/24/04 to clarify that the IASS will consist of reconfigured entries. Pending reconfigured entry legislation.</p> <p>Updated 10/16/2005 to reflect current ESAR plan.</p>

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ENT-003.1	690	In addition, because the reconfigured entries in an IASS will cover aggregate import activity during an entire month, multiple protest (and request for re-liquidation) issues are likely to abound. For some issues, Customs may be willing to grant a protest, while other issues may be subject to judicial contest. The use of reconfigured entries on an IASS enables each issue with respect to the covered imports to be handled individually without reference to other reconfigured entries.	6/21/2001	Pending	A3	<p>JULY 14, 2009: THIS REQUIREMENT (GIF 690) IS PENDING CBP CHANGER CONTROL BOARD (CCB) REVIEW.</p> <p>7/14/09: ENT 003 and all of its subparts have been incorporated into one requirement (that is, GIF 690). <i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ENT-003.2	690	The use of reconfigured entries on an IASS enables each issue with respect to the covered imports to be handled individually without reference to other reconfigured entries. This allows importers to receive refunds without having to wait for all issues to be resolved as would be the case if the entire IASS was the legal entity and required re-liquidation. This protects importers' interest in maintaining cash flows and solves the government's dilemma of accumulating large interest obligations on uncontested principal amounts that would otherwise have to await resolution of other issues in the IASS. Importers should have flexibility to structure the IASS in the manner that best comports with their business practices (e.g., either by importer number, port, etc.). Multiple IASS's can be filed for a month. This flexibility simplifies the aggregation rules required for an individual IASS.	6/21/2001	Pending	A3	<p>JULY 14, 2009: THIS REQUIREMENT (GIF690) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.</p> <p>7/14/09: ENT 003 and all of its subparts have been incorporated into one requirement (that is, GIF 690). <i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ENT-005	923	The IASS, as originally introduced into the law, was a consolidation/aggregation of periodic entry summary data; it was envisioned as the legal entity (i.e., the entry) for purposes of finality. The trade community required a change to this status so that if CBP extends liquidation it should extend only those lines on the IASS with respect to which it has insufficient information to finalize the IASS. As a result, the "reconfigured entry," as described in ENT-003 was developed. Consequently, for purposed of extension, it is the reconfigured entry (both for filers that report each release in list in the IASS and for those that summarize aggregated/rolled-up monthly import data) that will be extended, rather than the entire IASS.	6/21/2001	Pending	A3	<p>JULY 14, 2009: THIS REQUIREMENT (GIF 923) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.</p> <p>7/14/09: ENT 003 and all of its subparts have been incorporated into one requirement (that is, GIF 690). Additionally, this requirement incorporates by reference, the following: IASS White Paper; ENT 004 (CSPO GIF 922); ENT 005 (CSPO GIF 923); ENT 006 (CSPO GIF 921); ENT 010 (CSPO GIF 924); ENT 016 (CSPO GIF 925); ENT 017 (CSPO GIF 926); ENT 039 (CSPO GIF 915)</p> <p>4/8/08: This requirement has been submitted to to CBP for GIF Board review</p> <p>3/6/08: This requirement has been transferred to a GIF and is with the Entry Committee for further review.</p> <p>1/25/08 All IASS requirements are to be reviewed by the IASS subcommittee</p> <p>8/9/07 - ALL IASS AND RECONFIGURED ENTRY REQUIRMENTS NEED TO BE SUBMITTED AS SEPARATE GIFS.</p> <p>Subject to CBP policy determination and possible statutory and regulatory changes. It has now been decided that the IASS will not be the legal entity. The IASS summary itself will function as a box. Each line item on the IASS will be considered a reconfigured entry summary and will be subject to liquidation, protest, extension and etc. This requirement recommendation is based on the IASS being the legal entity and thus needs to be re-written. The requirement is being returned to the Entry Committee for incorporation in one comprehensive requirement addressing IASS.</p> <p>Revised 9/24/04 to reflect the reconfigured entry.</p> <p>Updated 10/16/2005 to reflect current ESAR plan.</p>

ENT-010	924	<p>Importers should be able to designate either prospectively, or retrospectively those elements of an ES/IASS they want to reconcile or revise. Business reality dictates that an importer will frequently not know or be able to identify on a prospective basis the types of adjustments it will need to make. While an importer filing computed value reconciliations will always know ahead of time that Computed Values will have to be adjusted, an importer using Transaction Value may not have such a general knowledge. For example, a given importer knows that for the vast majority (99.9%) of its business, Transaction Value will be based on the price paid or payable, without any adjustments to price or for the other statutory additions provided for in 19 USC 1401a(b). On occasion, however, certain business transactions may occur which may impact dutiable value. For a specific group of SKU's, months after import, the importer may receive a bill for a special mold that had to be provided to the manufacturer. Upon performing a review, the importer's compliance department discovers and validates that the mold expense relates to merchandise previously imported. At that point in time, the importer is ready to signal intent to reconcile as to the specific SKU's (and issue) affected.</p> <p>Retroactive flagging does not guarantee that every issue will be identified in a manner timely enough to capture within the reconciliation process, i.e., discovery of the issue may still occur after the deadline for retroactive flagging, necessitating an SIL or prior disclosure. However, many importers do not believe that aberrational adjustments warrant the prospective blanket flagging of all import activity just in case a Reconciliation adjustment may be necessary. Such blanket prospective flagging would require that the importer who might have an assist covering ten out of ten thousand SKU's, flag each and every summary/IASS covering all SKU's. Moreover, it is inequitable to create huge contingent liabilities with respect to an importer as a result of flagging all activity for the few aberrations (for finality purposes, Customs currently treats each flagged element as open (unliquidated) for one year after the Reconciliation is filed plus extensions, when applicable). Retroactivity provides the means to pinpoint the exact merchandise and issues subject to adjustment. Such pinpointing allows every thing else to liquidate.</p> <p>Under current legal and policy protocols, Customs needs to know what will be reconciled prior to liquidation, so that the items (e.g. IASS line (s)) will</p>	6/21/2001	Pending	A3	<p>JULY 14, 2009: THIS REQUIREMENT (CSPO-GIF-924) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.</p> <p>7/14/09: ENT 003 and all of its subparts have been incorporated into one requirement (that is, GIF 690). Additionally, this requirement incorporates by reference, the following: IASS White Paper; ENT 004 (CSPO GIF 922); ENT 005 (CSPO GIF 923); ENT 006 (CSPO GIF 921); ENT 010 (CSPO GIF 924); ENT 016 (CSPO GIF 925); ENT 017 (CSPO GIF 926); ENT 039 (CSPO GIF 927)</p> <p>6/29/09: This requirement was submitted to the ESAR team for review as part of the reconciliation requirements</p> <p>Status: 03/26/2008 - Per ESAR review this requirement needs to be split into an IASS component and a Reconciliation component. ENT-026		ACE shall accommodate the filing of aggregate data either on a weekly or monthly basis by approved filers. A. Zones shall have the flexibility to structure the IASS or weekly admission in a manner that comports with their business practices.	6/14/2002	Withdrawn	A3	4/20/09: This requirement is withdrawn 3/6/08: This requirement has been transferred to a GIF and is with the Entry Committee for further review. 1/25/08 All IASS requirements are to be reviewed/revised by the IASS subcommittee 8/9/07 - Will require a Gif. Subject to CBP policy considerations. This requirement is being referred to the FTZ Subcommittee to determine whether ENT 043 includes all functionality requested in this requirement. Updated 10/16/2005 to reflect current ESAR plan. 11/2/05: OPEN to determination of what and when FTZ data will be available in ACE. Is this an IASS requirement? Or an entry summary requirement? <i>Owner:</i> Monica Crockett
ENT-027		ACE shall provide the ability to accept multiple revisions to data previously submitted. A. ACE shall send an acknowledgment to the filer when the revision has been accepted. B. ACE shall provide an audit trail to track all revisions.	6/14/2002	Withdrawn	A2.3	4/20/09: Overtaken by events; withdrawn 3/6/08: This requirement has been transferred to a GIF and is with the Entry Committee for further review. 8/9/07 - This requirement should be satisfied with Post Summary Correction functionality. Subject to CBP policy decisions. This requirement is being referred to the FTZ Subcommittee to determine whether ENT 043 includes all functionality requested in this requirement. Updated 10/16/2005 to reflect current ESAR plan. Crossover with CT&E? 11/2/05; Partial acceptance in A2 Post Release Team will implement this functionality. However, not exactly as described here. ACE will acknowledge the receipt of the PSC but not necessarily the immediate "acceptance" of the PSC. ACE will have an internal audit trail, however this may not be visible to the Trade. <i>Owner:</i> Monica Crockett

ENT-039	915	<p>The trade needs the ability to de-flag entries and reconfigured entries/IASS lines previously flagged for reconciliation. The trade also needs the ability to retroactively flag entries and reconfigured entries/IASS lines for reconciliation.</p> <p>A. A reason code will be provided to indicate why the entry is being de-flagged. B. CBP's approval is required for some reason codes but not for "no change". C. ACE should provide the flexibility for an importer or their designated broker to do aggregate de-flagging, by this we mean an importer should be able to de-flag a group of entry summaries at one time as opposed to individually. D. Importers may NOT retroactively add reconciliation flags after the entry or reconfigured entry liquidates. E. ACE should allow de-flagging either through the portal or via EDI. F. De-flagging would need to occur within the 21 month time frame set for filing the reconciliation entry. G. In addition to de-flagging, the trade needs the ability to change the reconciliation issue flag. H. The filer should have the option of transmitting minimal data elements or the complete entry summary to accomplish the de-flagging, retroactively flagging or changes to the reconciliation issue flag.</p>	5/17/2004	Pending	A2.3; A3	<p>JULY 14, 2009: THIS REQUIREMENT (CSPO-GIF-915) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.</p> <p>6/29/09: This requirement was submitted to the ESAR team as part of the reconciliation requirements review</p> <p>7/14/09: ENT 003 and all of its subparts have been incorporated into one requirement (that is, GIF 690). Additionally, this requirement incorporates by reference, the following: IASS White Paper; ENT 004 (CSPO GIF 922); ENT 005 (CSPO GIF 923); ENT 006 (CSPO GIF 921); ENT 010 (CSPO GIF 924); ENT 016 (CSPO GIF 925); ENT 017 (CSPO GIF 926); ENT 039 (CSPO GIF 915)</p> <p>Status: 03/26/2008 - Per ESAR review this requirement should be split into an IASS and Reconciliation component. IASS is scheduled for development in ESAR A3 and Reconciliation is scheduled for development in ESAR A2.3.</p> <p>3/6/08: This requirement has been transferred to a GIF and is with the Entry Committee for further review.</p> <p>1/25/08 All IASS requirements are to be reviewed/revise by the IASS subcommittee</p> <p>8/9/07 - Will require a GIF.</p> <p>Subject to CBP policy considerations. Points A through E have preliminary CBP approval. Point F has preliminary approval but the time period should read 10 months. Point G requires additional explanation from the Subcommittee and CBP input. Point H also requires CBP input.</p> <p>Updated 10/16/2005 to reflect current ESAR plan. Deflagging has been rejected. Retroactive has preliminary CBP approval.</p> <p>11/2/05: Partial acceptance in A2 Retroactive flagging will be supported in A2 via a Post Summary Correction. IASS impacts are unknown.</p>

Requirement #	GIF	TSN Requirement Description	Submission date	Status	Release (s)	Comments
ENT-043.17		<p>Arrival of Goods</p> <p>29 .Ability to indicate an in-bond shipment has arrived at a zone and is available for immediate use upon official receipt.</p> <p>30 .Ability to indicate an in-bond shipment receipt is the last of those to be compared to a particular in-bond movement. This indication starts the count for the 15-day requirement for filing a zone admission for the movement (19CFR4.37(b)).</p>	1/30/2004	Withdrawn	M1, A2.3	<p>4/20/09: This requirement is withdrawn</p> <p>3/6/08: This requirement has been transferred to a GIF and is with the Committee for review. All parts of ENT-043 (that is, ENT-043.1 though ENT 043.34, have been integrated into ONE GIF).</p> <p>1/25/08- This requirement needs to go to CBP for further review/input</p> <p>8/28/07 - - Item 29 - ACCEPTED - Item 30 - Requires further CCR team review of 19CFR 4.37(b).</p> <p>29 - Input into ICRS 30 - Further definition needed</p> <p>Updated 10/16/2005 to reflect current program plan.</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p> <p><i>Owner:</i> Vince Annunziato</p>
ENT-043.18		<p>Arrival of Goods</p> <p>31. Ability to close in-bond data using the admission data including any corrections noted during acceptance.</p>	1/30/2004	Withdrawn	M1, A2.3	<p>4/20/09: This requirement is withdrawn</p> <p>3/6/08: This requirement has been transferred to a GIF and is with the Committee for review. All parts of ENT-043 (that is, ENT-043.1 though ENT 043.34, have been integrated into ONE GIF).</p> <p>8/28/07 - ACCEPTED</p> <p>Updated 10/16/2005 to reflect current program plan.</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p> <p><i>Owner:</i> Vince Annunziato</p>

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ENT-043.19		<p>Receipt of Goods</p> <p>32. Ability to indicate discrepancies on the admission upon receipt of goods along with a pre-set reason code</p> <p>33 .Ability to validate that a shipment is covered by direct delivery automatically from an indicator of zones operators approved for direct delivery as well as a list of the HTS's (six ten digit level) and Actual Countries of Origin (not related but individual lists) for which each zone is approved upon post receipt filing of the admission in ACE</p>	1/30/2004	Withdrawn	M1, A2.3	<p>4/20/09: This requirement is withdrawn</p> <p>3/6/08: This requirement has been transferred to a GIF and is with the Committee for review. All parts of ENT-043 (that is, ENT-043.1 though ENT 043.34, have been integrated into ONE GIF).</p> <p>1/25/08 - This requirement will need to be converted into a GIF and will also require additional Entry Committee input</p> <p>8/28/07 - - Item 32 - Committee will need to specify reason codes beyond what they get today. Will require a GIF (Steven Lubel action). - Item 33 - Requires further committee review to clarify and determine if a GIF will be required. (Steven Lubel action).</p> <p>33 - referred to legal policy</p> <p>Updated 10/16/2005 to reflect current program plan.</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p> <p><i>Owner:</i> Vince Annunziato</p>
ENT-043.2		<p>Prevention of Duplicate Data Entry</p> <p>5. Ability to obtain information previously entered on the advance manifest (AMS) automatically for the completion of an admission using an identifier (e.g. Bill of Lading, IT number, etc.): a. Current CF214 header information b. Including Date of Sailing for Export date</p> <p>6. Ability for the user and operator to view the manifest data with the 6-digit HTSUS classification for such activities as checking against the zone's direct delivery auto-approval list, correction of incorrect classification, and performing due diligence regarding goods being received in the zone.</p>	1/30/2004	Withdrawn	M1, A2.3	<p>4/20/09: This requirement is withdrawn</p> <p>3/6/08: This requirement has been transferred to a GIF and is with the Committee for review. All parts of ENT-043 (that is, ENT-043.1 though ENT 043.34, have been integrated into ONE GIF).</p> <p>1/25/08 - This requirement will need to be converted into a GIF and requires Entry Committee further review/input</p> <p>8/28/07 - - Item 5 - One master bill at a time could be considered but requirement is rejected as written. Will require Entry committee review to determine if GIF will be required. (Steven Lubel action). - Item 6 - CBP doesn't always have the 6 digit HTS. Will not be done.</p> <p>Updated 10/16/2005 to reflect current program plan.</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p> <p><i>Owner:</i> Vince Annunziato</p>

Requirement #	GIF	TSN Requirement Description	Submission date	Status	Release (s)	Comments
ENT-043.20		<p>34. Ability to indicate a receipt exception (i.e., quantity, value, Country of Origin, Classification, etc.) versus lost cargo upon entering corrections during acceptance of admission</p> <p>35. Ability to add, edit, and delete Direct Delivery auto-approval database information (within the scope of the FTZ Board approval and the Annual Blanket – CF216) to be used for comparison to a post receipt admission notification</p> <p>36. Ability for automatic notification to port director when a zone's direct delivery auto-approval list is modified</p> <p>37. Ability for a port director to electronically approve modifications to a zone's Direct Delivery auto-approval list</p> <p>38. Ability to have auto approval of a change to a zone's direct delivery auto-approval database if there has been no review within 2 business days of submission of the change</p>	1/30/2004	Withdrawn	M1, A2.3	<p>4/20/09: This requirement is withdrawn</p> <p>3/6/08: This requirement has been transferred to a GIF and is with the Committee for review. All parts of ENT-043 (that is, ENT-043.1 though ENT 043.34, have been integrated into ONE GIF).</p> <p>1/25/08 - This requirement will need to be converted into a GIF and requires Entry Committee further review/input</p> <p>8/28/07 - - Item 34 - Requires internal committee review to clarify. (Steven Lubel action). - Item 35 - Will not be done. - Item 36 - Will not be done. - Item 37 - Will not be done. - Item 38 - Will not be done.</p> <p>Updated 10/16/2005 to reflect current program plan.</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p> <p><i>Owner:</i> Vince Annunziato</p>
ENT-043.21		<p>CBP Approval</p> <p>39. Ability for CBP electronic approval of the post receipt admission</p> <p>41. Ability for the filer, receiver of goods, carrier, and applicant to receive notice of approval of an admission</p>	1/30/2004	Withdrawn	M1, A2.3	<p>4/20/09: This requirement is withdrawn</p> <p>3/6/08: This requirement has been transferred to a GIF and is with the Committee for review. All parts of ENT-043 (that is, ENT-043.1 though ENT 043.34, have been integrated into ONE GIF).</p> <p>8/28/07 - Item 39 - Will be done. - Item 41 - Will be done.</p> <p>Updated 10/16/2005 to reflect current program plan.</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p> <p><i>Owner:</i> Vince Annunziato</p>

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ENT-043.22		CBP Approval 40. Ability for the filer, receiver of goods, carrier, and applicant to perform a status query regarding an admission at any given time, depending on its assigned permissions including confirmation of the receipt of an admission in the system	1/30/2004	Withdrawn	M1, A2.3	4/20/09: This requirement is withdrawn 3/6/08: This requirement has been transferred to a GIF and is with the Committee for review. All parts of ENT-043 (that is, ENT-043.1 though ENT 043.34, have been integrated into ONE GIF). 8/28/07 - Will be done. Updated 10/16/2005 to reflect current program plan. (Reviewed by CCR team June 2006-regular updates will be provided) <i>Owner:</i> Vince Annunziato
ENT-043.23		FTZ Process Flows - Non-Direct Delivery Admission Temporary Deposit 42. Ability to flag an admission for temporary deposit electronically and goods included on the request are not subject to direct delivery. Such flagged admissions go through an approval process requiring less data than a non-temporary (* regulatory affirmation, if needed)	1/30/2004	Withdrawn	M1, A2.3	4/20/09: This requirement is withdrawn 3/6/08: This requirement has been transferred to a GIF and is with the Committee for review. All parts of ENT-043 (that is, ENT-043.1 though ENT 043.34, have been integrated into ONE GIF). 8/28/07 - Will be done. Updated 10/16/2005 to reflect current program plan. (Reviewed by CCR team June 2006-regular updates will be provided) <i>Owner:</i> Vince Annunziato

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ENT-043.24		Operator Interaction with non-Operator Applicant 43. Ability for an operator to enter into the system a list of applicants for whom the operator has admitted goods to the zone in the past 44. Ability for the operator to see an automatic indicator if an applicant has requested to admit goods to the zone and there has never been an admission of this applicant's goods to the operator's zone in the past 45. Ability for the operator to approve or deny admission by a previously un approved applicant 46. Ability for the operator to provide comments regarding the reason the admission was denied 47 .Ability for the operator to indicate acceptance of liability 48 .Ability to for an operator to designate applicant firms whose requests to admit are automatically approved without individual manual review by operator 49 .Ability for the system to inform the operator that an admission from a pre-approved applicant has been entered into the system 50 .Ability for applicant to edit an admission if denied by operator or CBP and re-submit the modified admission for reconsideration 51 .Ability for the system to prevent distribution of operator denial comments made on an admission upon resubmission of the corrected admission 52. Ability for the operator, upon accepting liability, to document any corrections to previously entered information while retaining the originally entered information	1/30/2004	Withdrawn	M1, A2.3	4/20/09: This requirement is withdrawn 3/6/08: This requirement has been transferred to a GIF and is with the Committee for review. All parts of ENT-043 (that is, ENT-043.1 though ENT 043.34, have been integrated into ONE GIF). 1/25/08 -This requirement will need to be converted into a GIF and requires Entry Committee further review/input 8/28/07 - - Item 43 - REJECTED. Filer must maintain list. - Item 44 - REJECTED - Item 45 - REJECTED - Item 46 - ACCEPTED - Item 47 - ACCEPTED - Item 48 - REJECTED - Item 49 - ACCEPTED - Item 50 - ACCEPTED (with understanding that 'applicant' will be changed to 'filer'). - Item 51 - REJECTED - Item 52 - Will require internal committee review to determine if GIF will be required (Steven Lubel action). Some parts are accepted, other possibly rejected. Overall further clarification is needed. Updated 10/16/2005 to reflect current program plan. (Reviewed by CCR team June 2006-regular updates will be provided)

ENT-044		<p>The trade needs the flexibility to be able to transmit only those lines that have changes from the original entry summary, along with the entry identification (header level information to tie the reconciliation to the entry) and revised numerical totals at the entry level. In order to do this, the system should provide the ability to transmit data line-by-line for the reconciliation, the same ability as is already available for the filing of the original entry summary, i.e., entry summary lines are transmitted individually. With respect to the transmission of the revised numerical entry level totals, the trade wants to continue to do what is currently done: the filer would transmit the baseline totals contained in CBP's data base together with the new, revised total resulting from the reconciliation. In this manner, it will be apparent that CBP and the filer are working from the same baseline information.</p> <p>For the line level information, the trade wants to be able to transmit only the new (reconciled) values and only for those lines that contained information that has changed from the original entry summary. The trade does not want to be required to transmit at the line level both the original summary line information (contained in CBP's data base) and the new entry summary line values.</p>	8/8/2004	Withdrawn	A2.3	<p>SEPTEMBER 9, 2009 - THIS REQUIREMENT HAS BEEN OBE. SEE ENT-041 (CSPO-GIF-930)</p> <p>7/7/09: This requirement was sent to the ESAR team as part of the reconciliation requirements review</p> <p>4/20/09: This requirement is pending further Committee review</p> <p>3/6/08: This requirement is on HOLD pending further Committee review.</p> <p>1/25/08 Requires further Entry Committee review/input</p> <p>8/9/07 Valarie Neuhart needs to verify status.</p> <p>Updated 10/16/2005 to reflect current ESAR plan.</p>

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ENT-066	1090	<p>ABI REPORTS TO REPLACE DAILY STATEMENT:10/23/2009</p> <p>When ACE is fully integrated with the new financial system [need name] the result will be a full separation of the trade's operational and financial interface with CBP. When this occurs, the operational/financial flow of information to the filer that currently exists under ACS will change. As a result, filers utilizing the Periodic Monthly Statement (PMS), will no longer receive the Daily PMS Statements (PDS) that incorporates both the financial information and operational information currently used by the trade to manage its workflow. This change creates the need for something in ACE to replace the statement. It also raises a number of operational questions.</p> <p>Today, customs brokers and self filers utilize the Daily PMS Statement (PDS) to manage their workload to create the checks and balances necessary to manage (validate) the PMS statement process on a daily basis. Under ACE PMS, the PDS represents all releases for a particular date that will be due for payment, in aggregate, the following month. In addition, the PDS is used as a daily transmission sheet for "documents due;" that is, trade uses it to monitor the 10-day clock to file documents required for specific entries identified on the PDS. It also is used to track the acceptance and finalization of duty free and fee free entries where no payment is due.</p> <p>From an operational standpoint, after full ACE financial integration, brokers and self filing importers that will handle any volume of transactions will still need daily information to manage their operations. Waiting until the end of the month to receive the first ACE PMS statement is not an option. The inability to manage this large volume of data could subject the filer to late filing penalties. More frequent access to this information allows the importer/filer to incorporate "due diligence" into the process.</p> <p>Requirement: The trade would like the ability to have three reports that would replace the PDS and provide, essentially, the same information. The reports covered by this GIF are specifically aimed at the filers and exchanges only through ABI EDI interfaces in ACE as this is the way all entry filers work with CBP and the one that will have the immediate critical need for this once the revenue processing is broken away from the commercial operations in ACE. It is expected that some similar requests may come using the portal, but this request is not intended to cover the more limited needs of the group using the Portal. The first report (Report A) would be provided to the</p>	10/23/2009	Pending	A2, A2.3	OCTOBER 23, 2009 - THIS REQUIREMENT (CSPO-GIF-1090) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.

filer (push by CBP via ABI) on a daily basis. It would be similar to the current PDS and would be managed the same way. Unless a different day was selected through the portal, the report would be provided eight working days after the date of entry and would list all entries (free and dutiable) for that release date. If documents were due for those entry summaries, the report would indicate what is due. The second report (Report B) would be a selectable ABI report that would allow the filer to pull a report, with the same data as Report A. Report B would allow the filer to select a single date of release or a range of release dates.

The last report (Report C) would also be a pull report via ABI. This report would provide information about open "docs required" requests. In simplest form, this report would list the entry number, date of release, documents requested by CBP and the due date. The request could be made for all open "docs required" requests, or based on due date. For example, a filer could request all open "docs required" requests from CBP that are expiring within 5 days.

While these are general outlines of reports that will be needed, it is necessary for CBP to have a sufficient number of work sessions with the trade to fully vet the needs and methods to satisfy them with CBP and the programmers to finalize agreement on data details, timing, role of the Portal in the filer selecting time periods and other options.

There are still a number of issues that need further dialogue include:

- Proof of payment requirement for due diligence under 19 CFR 111.29 to satisfy CBP's auditors. It has been suggested that there may need to be a further message from CBP indicating that an ABI entry has been satisfied.

- Question as to whether reports A&B can be combined into one regular request from the broker/importer-filer as a daily pull request from the filer. Questions arise as to whether CBP wants all these messages.

- The whole "docs required" changes need to be reviewed in the context of this change and the proposed changes by CBP. There were a number of discussions as to ways for the filer to batch paper document submissions on a daily basis and CBP to issue one receipt for all -- as opposed to CBP and the trade having to process each one separately.

- Different size filers may need to process their workload differently depending on their size. A filer that submits large volumes will need daily management, but smaller filers may want to manage on a weekly basis. We need input from both types of filers.

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ENT-067	1091	<p>ULTIMATE CONSIGNEE AND ACE ID GENERATION: CBP and the trade are considering a proposal to replace the data elements "ultimate consignee" and the "manufacturer identification code (MID)" with four data elements to enhance targeting. In addition, CBP and the trade need to better align all trade entities in the manifest, entry/entry summary, and the Importer Security Filing (ISF). The trade entities should be clearly defined and consistent across the entire supply chain and all CBP applications. The new data elements replacing the ultimate consignee and MID would identify the 'sold to' and "deliver to" parties and the "manufacturer/producer/grower" and "exporter/shipper/seller" parties, respectively. To identify these parties, an ACE ID would be used as an alternative to the employer identification number (EIN), social security number, and the manufacturer identification code (MID) on the entry (cargo release) and the equivalent CBP Form 3461.</p> <p>In the current environment, use of the EIN, social security number, and the MID code to identify the trade entities is very problematic. Importers are very concerned about using their tax number on customs transactions, especially individuals with the growing concern about theft identify. Additionally, the MID code presents a host of problems and challenges itself. The ACE ID will be used instead of the EIN, the social security number, and MID to identify the trade entities. Currently, there isn't a mechanism to generate the ACE ID for this purpose. This GIF sets forth the requirements for generating the ACE ID to replace the current identifiers.</p> <p>To generate an ACE ID to identify trade entities, the following information is needed:</p> <ul style="list-style-type: none"> • Full legal name • Complete address • One numeric identifier such as an EIN, social security number, DUNS number, driver's license number, passport number, date of birth (individuals), telephone number, GPS coordinates, and other commercially verifiable information. This third piece of data is needed for independent verification of the trade entity. The trade entity should have the ability to enter multiple pieces of data rather than just a single piece of data. <p>A separate ACE ID should be created whenever the address and the third piece of identifying information are different from the name.</p>	10/23/2009	Pending	A2, A3	OCTOBER 23, 2009 - THIS REQUIREMENT (CSPO-GIF-1091) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.

This will allow the same entity with different operating divisions a way to create unique ACE IDs.

The role of the entity assigned an ACE ID should not be limited. One ID would be assigned for all roles exercised by that entity if for example the entity is the "sold to" and "deliver to" parties.

Each data element (or entity) should have an accompanying "identifier" or "qualifier" to establish their role. For example, when there is more than one possible entity such as the "manufacturer/producer/grower," this will help identify which entity that data element represents.

The trade needs the ability to file a "disclaimer" in the event a data element can't be accurately reported. An example would be when the exact manufacturer or deliver to party can't be identified. There needs to be some business rules when a disclaimer can't be used. However, there are some situations when by default a disclaimer is needed. The system should allow at least two disclaimers: one for one of the U.S. trade entities (sold to and deliver to) and one for foreign entities (manufacturer/producer/grower or exporter/shipper/seller).

CBP and the trade recognize the difficulty in implementing this requirement for low value and informal shipments. Therefore, the requirement for collecting this data must be part of a phased-in enforcement approach over a specified number of years to ensure the trade can fully comply with the new requirements.

The new data elements using the ACE ID as the identifier must be reported on the line item level on both the entry and entry summary transactions. There needs to be a conversion of the current ACS MID database to the ACE ID. The conversion of the FDA MID should be considered within the scope of this request.

Create the ability for any trade entity to obtain an ACE ID to help maintain strict confidentiality. The ID can then be given to the broker to file the customs entry.

Create the ability to query ACE to determine if an ACE ID already exists to avoid duplicating IDs. Certain identifying information would need to be

submitted in the query request to ensure confidentiality of information. Also, there needs to be rule to determine who can query ACE IDs. Query capability should be allowed using ABI and other mechanisms such as EDI and the Secure Data Portal.

Create the ability to update and inactivate the ACE ID. There needs to be rules to determine who can update the ACE ID. Update capability should be allowed using ABI and other mechanisms such as EDI and the Secure Data Portal.

In an effort to keep ACE IDs current, the following rules should apply:

- If an ACE ID shows no activity in 12 months, CBP should inactivate the ID. The party that created and the owner of the ID should be notified of CBP's intent to inactivate the ID 30 days prior to the close of the 12 months inactive period.

- After 18 months of continual transactions involving an ACE ID, CBP should send the party that created and the owner of the ID notice to verify all information used to create the ID is still current and correct. CBP should send this notice 30 days prior to the close of the 18-month period.

ENT-068	1092	<p>ULTIMATE CONSIGNEE AND MANUFACTURER IDENTIFICATION NUMBER: CBP OFO proposes the elimination of the data field "Ultimate Consignee" and its replacement with two data fields with corresponding definitions (as below): "Sold To"- The named sold to (buyer, purchaser etc) from the invoice at the time of entry. Further defined as the U.S. party causing the importation by reason of establishing a financial interest in the imported goods. If goods are not arriving in the U.S. pursuant to a sale the field should be left blank and the "deliver to" party must be submitted. In short, if the goods are not sold, then this field should not be completed. "Deliver To"- The identification of the named party on the invoice that will physically receive the merchandise, which may be different from the consignee (e.g. de-consolidator warehouse).</p> <p>Manufacturer Identification Number: CBP also proposes the splitting of the current "Manufacturer Identification Number" field into the following two data fields with corresponding definitions (as below): "Manufacturer/Producer/Grower" - The entity that manufactures, produces, or grows the imported commodity. These entities produce or grow raw material or by labor, art or skill transform raw product or article of trade. The transformation of the raw material may involve processing into finished goods, or the production of goods to be further assembled to create a finished product, or the assembly of goods into a finished product. For entry purposes this is the location where the country of origin attaches to the merchandise. "Exporter/Shipper/Seller" - The last named overseas (foreign) party identified on the transaction invoice/purchase order, that has a financial interest in the goods, and who causes the goods to be shipped by any mode of transport. This is not the transportation shipping party (freight forwarder, consolidator or NVOCC). For consigned shipments, household effects shipments, lease transactions and similar contractual arrangements; the name of the supplier may be provided in lieu of seller information. The supplier could be a trading company, selling agent, owner (e.g. personal/household effects) or similar party.</p> <p>In addition, CBP and the trade need to better align all trade entities in the manifest, entry/entry</p>	10/23/2009	Pending	A2, A3, CR	<p>OCTOBER 12, 2011 -This requirement was determined to be out of scope for cargo release. But may be included in the future.</p> <p>SEPTEMBER 16, 2011 -This requirement in pending CBP L/P Input for cargo release.</p> <p>OCTOBER 23, 2009 - THIS REQUIREMENT (CSPO-GIF-1092) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.</p>

summary, and the Importer Security Filing (ISF) transactions. The trade entities should be clearly defined and consistent across the entire supply chain and all CBP applications. These definitions should be broad enough to allow for minor modifications for special emphasis programs or PGA definition. Additional defining elements may be added by policy or regulation to meet specific needs when appropriate but should fit within the definitions provided.

Identification Numbers:

It is also proposed that the following information be presented to identify the four data fields above :

- 1.The ACE ID of the appropriate party (see below).
- 2.The Tax ID, CBP assigned number or social security number of the appropriate party if known (current).
- 3.The Dun and Bradstreet (DUNS) number of the appropriate party if known.

New Functionality for ACE ID:

It is further proposed that a new account type and appropriate functionality will be developed that will allow these reference entities to be assigned ACE identification numbers directly from ACE. This should function in two ways:

- 1.An secure online (portal) functionality that will allow any party to establish their reference file directly with CBP. This will allow these parties to provide their name, address and at least one additional, verifiable unique identifier that is yet to be fully determined (anticipated examples include Social Security number, tax ID number, DUNS number, Drivers License number, Date of Birth, passport number etc.). For foreign addressing, the portal shall provide on-line guidance for registration in identified country's address format. CBP will provide a registration edits to ensure proper addressing.
- 2.The equivalent process for EDI (including ABI) participants to supply the information when known.

Elimination of the MID Algorithm:

It is also proposed that the current MID algorithm will not be used directly but shall be converted to an ACE assigned identification number. These numbers will be provided to the trade and PGA's once assigned. Future numbers will be assigned as above.

Query Functionality:

For these ACE identification numbers ACE will provide a query functionality that allows participants to input existing information and have matching ACE

ENT-069	1093	<p>CONTINUATION OF ACS FUNCTIONALITY IN ACE: During the several years of the ERP I to III discussions (1977 to 2000) between the U.S. Customs Service and the various trade organizations, the basic structure of the current entry/entry summary process was validated. Based on these IRP results, early on the TSN Entry Committee wanted to ensure that ACE would provide, at a minimum, the same functionality that was present in ACS. This included preserving a two-step process (entry/release and entry summary), ensuring that all EDI reports and queries in ACS are also in ACE and the like. This committee asked the Customs development team whether it was necessary to document all of these ACS capabilities. We were advised that we needed to focus on changes and improvements to the process in developing requirements; that Customs would move all the functionality from ACS to ACE without requirements. The purpose of this requirement document is to memorialize the importance of transferring ACS capabilities to ACE.</p>	10/23/2009	Pending	A2.4	OCTOBER 23, 2009 - THIS REQUIREMENT (CSPO-GIF-1093) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.

ENT-RSC-003		There is a fundamental gap, from the entry filer's perspective, in the ability to identify and reconcile the specific shipment transaction that has been released under BRASS. The Bill of Lading Number (Shipment Control Number (SCN) in the truck eManifest) is not passed from ACE to ABI and the entry filer. The Bill of Lading Number (SCN) that the carrier assigns to the shipment on the eManifest should be forwarded to the broker in the X24 record of the ABI XR data sets. Communication of this data element will enable the entry filer to identify the specific shipment released by CBP		Withdrawn	A1, M1	3/6/08: This requirement has already been addressed and is withdrawn by the sub-committee.

ENT-WHS-059	905	<p>Currently anytime there is a need to invoke CF 3499 it is a very manual and paper filled process that results in a paper backlog and many hours of inefficient time to transport and process paperwork that can otherwise be processed electronically.</p> <p>There are many scenarios that one would invoke CF3499. The scenarios range from repackaging, destroying and/or adjusting for product damaged or destroyed while in bonded care and other similar scenarios that requires some sort of manipulation, exam, sample or transfer of goods while in bonded care. Today the CF 3499 is completed manually in paper form and taken to the local customs office where it is left usually in a basket/tray for review by a customs agent. Once the customs agent has reviewed the document, approved, denied or changed the requested process, the customs agent then contacts the notifying party to discuss the necessary next steps to complete the requested change of the shipment. The customs agent upon satisfaction will sign off on the CF 3499 leaving a paper copy for the requesting party and taking the original paper copy back to the customs office for input and updating to the shipment record at customs.</p> <p>Description of Recommended Change: We the trade believe that the CF3499 should be made available through ACE in an electronic format. We envision completing an online version of the form and submitting it to customs for their review. Once the customs agent has reviewed the electronic CF 3499, they could: A.Reply with approval electronically placing the CF 3499 in an "Approved Status" through ACE. B.Reply with a request for further information or need for inspection putting the CF 3499 into a "Pending Status" through ACE. C.Reply with a "Declined" notification requiring the requestor to resubmit and/or contact customs to determine next course of action. This option would leave the CF 3499 in a "Declined Status" Through ACE.</p> <p>All final approvals would be completed online by customs with the electronic status notifications being available to the requestor through ACE.</p> <p>For example; if a bonded facility handling product in full case quantities and needs to repackage in less than full case quantities, the Bonded Facilities operator would create and submit CF 3499 through ACE to U.S. Customs. U.S. Customs would review and either choose to approve the CF 3499 as</p>		Pending	A2.3	<p>JULY 14, 2009: THIS REQUIREMENT (CSPO-GIF-905) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.</p> <p>April 27 2009: CF3499: Pending submission to CBP CCB for review. Awaiting designation of a CBP Business sponsor.</p>

provided, put the CF 3499 into "Pending Status" if an inspection is deemed necessary or disapprove and put the CF 3499 into a "Declined Status" with comments as to why and what is required. In the case noted above, once the CF3499 was approval electronically through ACE by U.S. Customs, there would be an inventory adjustment made with a printed copy of the screen approval for the Bonded Facilities file.

ENT-WHS-061	904	<p>BACKGROUND</p> <p>Current Regulations provide for the transfer of merchandise between bonded warehouses within the same port through the use of the non-automated CF 6043 – 19 CFR 144.34 and 144.41. Additionally, the port director MAY require the filing of a rewarehouse entry if the port director determines it is necessary for the proper control of the merchandise.</p> <p>REQUESTED CHANGE TO CURRENT PROCEDURE</p> <p>Current regulations and procedures governing the transferring of in-bond merchandise between bonded warehouses within the same port (1) do not allow for a paperless release, (2) do not allow for the transference of bond or importer information between warehouse proprietors and (3) do not provide for the filing of a paperless type 22 entry. Transferring in-bond merchandise to different bonded facilities operated by different entities within the same port limits is nothing new to Customs. FTZ's have been doing this for quite some time using a CF 7512 (see FTZM 9.11(a)) in order to assure that the bonded facility at destination has the necessary information in order to exercise proper control over the in-bond merchandise and to be able to file proper documentation for the admission (entry) of the merchandise into the bonded facility at destination.</p> <p>Ace should allow for the paperless release of in-bond merchandise, on CF 7512, for the purpose of transportation between bonded warehouses within the same port limits. Ace should also allow the filing of a paperless type 22 entry for such transferred merchandise.</p>		Pending	A2.3	<p>JULY 14, 2009: THIS REQUIREMENT (CSPO-GIF-904) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.</p> <p>April 27, 2009: Paperless Transfers Within Port Limits: Pending submission to CBP CCB for review. EXP-001	939	<p>"Filing Automated Export System (AES) Electronic Export Information (EEI) commodity data via the ACE Portal and Electronic Data Interface (EDI)"</p> <p>1. ACE must provide the functionality to accept the filing of export commodity data elements via the ACE secure web portal and through EDI systems. The ACE portal must provide a vehicle by which U.S. Principal Parties in Interest (USPPIs), freight forwarders, and other authorized filers can file all commodity data required for filing the export manifest, and electronic export information (EEI) (formerly referred to as SED data), directly to Customs and Border Protection via the ACE portal. The ACE portal must be developed as a single window for processing EEI transactions.</p> <p>2. ACE shall make available to USPPIs and their authorized agents all functionality for filing electronic export information (EEI) that is currently provided to them by AES and AES Direct, except for functionality that has been rendered unnecessary by changes in the CBP business processes that AES and AES Direct support.</p> <p>3. ACE must provide the capability for an authorized user to enter or update EEI onto a single continuous form (i.e. single screen, or data entry port) via the ACE web portal. Changes may be made via the ACE web portal, whether the original data was submitted via the web portal or through system-to-system interaction. All historical data must be maintained in ACE for the longest required record retention period of any applicable PGA, and available to view by the account owner or authorized user.</p> <p>4. The data set for EEI, whether for the original transmission or for a change to an EEI data entry, shall include an optional comment field that will accommodate up to 500 characters of text. A comment must become read-only once it has been submitted and it must be associated with a date-time stamp that gives the date and time of submission.</p> <p>5. System has to be built to allow for amending EEI on originally filed cargo information. Data field(s) must be provided to report the previously assigned XTN or ITN for the shipment that is being amended en route. A Census regulatory change to 15CFR Part 30 will be required. Note: This would allow additional information to be provided to CBP for enforcement purposes, and/or to clarify special circumstances related to the shipment (split shipment information, cargo diversion, special</p>	12/18/2006	Pending	M3	<p>JULY 31, 2009 - THIS REQUIREMENT (CSPO-GIF-939) IS PENDING CBP CHANGE CONTROL BOARD REVIEW.</p> <p>This requirement was submitted to the CCR Team on December 18, 2006 as a placeholder for reference and development in a future ACE release. This requirement replaces EXP-001, EXP-001.1, EXP-001.2, EXP-001.3</p>

export license information, sold en route, etc).

6. For a routed transaction, the USPPI is only entitled to see the EEI data elements the USPPI is responsible for providing to the foreign principal party in interests' freight forwarder (FTSR 15 CFR 30.4 (c)).

7. ACE must provide the capability for an authorized account to view, download, and print EEI that they have filed or that has been filed on their behalf.

8. ACE must provide viewable, downloadable (raw and pre-defined report data), and printable reports to authorized EEI filers and USPPIs through the export account portal. The report set must include the number of EEI transactions filed over a specified period, the number late or in error over a specified period, and specific details for each incident of a late or erroneous filing.

Note: -- These reports will support tracking of transaction statistics and compliance rates.

EXP-002	940	<p>"Filing Export Manifest Information via the ACE Portal and EDI" TRADE ACT OF 2002, P.L. 107-210 SEC. 343. <<NOTE: 19 USC 2071 note.>> MANDATORY ADVANCED ELECTRONIC INFORMATION FOR CARGO AND OTHER IMPROVED CUSTOMS REPORTING PROCEDURES. (a) Cargo Information.-- (1) In general.--Subject to paragraphs (2) and (3), not later than 1 year after the date of enactment of this Act, the Secretary shall promulgate regulations providing for the transmission to the Customs Service, through an electronic data interchange system, of information pertaining to cargo destined for importation into the United States or exportation from the United States, prior to such importation or exportation. Background Information • The Federal Register, Vol. 68, No 234/Friday December 5, 2003 – Department of Homeland Security, 19 CFR Parts 4, 103 et al., Required Advance Electronic Presentation states on page 68162: The USPPI or its authorized agent must report the port of exportation as known when the USPPI or its agent tenders the cargo to the outbound carrier. Should the carrier export the cargo from a different port, the carrier so informs the USPPI or agent, the port of exportation must be corrected by the filer in AES. Proposed 192.14 (c) (2) (vi) is revised in this final rule to clarify this issue. • The USPPI or his agent, pre-filing the EEI data, has only estimated transportation data. When the carrier transmits transportation data, ACE will be in receipt of updated EEI transportation information in ACE (AES and AES Direct) automatically rather than require updates from the EEI filer based upon second hand data. REQUIREMENT RECOMMENDATION 1. ACE must provide the capability to file export transportation data via the ACE secure data portal or via electronic (EDI) batch transmissions. ACE must provide the means for USPPIs (exporters), freight forwarders, carriers, or their authorized agents to file all transportation information required for the advanced electronic filing of the outbound manifest. 2. For filing export transportation data, ACE shall make available to carriers and NVOCCs all functionality that is currently provided to them by</p>	12/18/2006	Pending	M3	<p>JULY 31, 2009 - THIS REQUIREMENT (CSPO-GIF-940) IS PENDING CBP CHANGE CONTROL BOARD REVIEW.</p> <p>This requirement was submitted to the CCR Team on December 18, 2006 as a placeholder for reference and development in a future ACE release.</p>

AES and AES Direct, except for functionality that has been rendered unnecessary by changes in the CBP business processes that AES and AES Direct support.

3. When USPPIs or EEI filers access their EEI data in ACE, updates made by ACE to transportation based upon the Export Manifest shall be accessible along with the originally submitted values.

CLARIFICATION - The Federal Register, Vol. 68, No 234/Friday December 5, 2003 – Department of Homeland Security, 19 CFR Parts 4, 103 et al., Required Advance Electronic Presentation states on page 68176: (2) Transportation Data, Reporting of the following transportation information is currently mandatory for AES participants under 15 CFR 30.63 for the vessel, air, truck and rail modes:

- (v) Country of ultimate destination (this is the country as known to the USPPI or its authorized agent at the time of exportation, where the cargo is to be consumed or further processed or manufactured ; this country would be identified by the 2-character ISO code for the country of ultimate destination.

- Please note that this is not transportation data.

This information can only be supplied by the USPPI. The carrier can only supply the ultimate destination of his contract of carriage. The carrier could be moving the goods to Rotterdam, and the ultimate country of destination could be Germany. The buyer may elect to pick up the goods in Rotterdam and truck them to Germany with his own transportation. The carrier's ultimate destination could be different than the USPPI's country of ultimate destination.

4. ACE must provide the capability for an authorized Trade user to view, download, and print Export Manifest data that they have filed or that has been filed on their behalf.

5. ACE must provide viewable, downloadable, and printable reports to the TAO and authorized Export Manifest filers through the ACE portal. The report set must include the number of Export Manifest filed over a specified period, the number late or in error over a specified period, and specific details for each incident of a late or erroneous filing.

Note: -- These reports will support tracking of transaction statistics and compliance rates.

6. Upon acceptance of Export Manifest data by ACE, ACE shall update estimated transportation data elements on the corresponding EEI using the transportation data values from the Export Manifest? In case of a discrepancy between the two sets of transportation data, the ACE system will

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
		<p>NOT notify the USPPI or filer of the EEI. The discrepancy will be resolved upon submission of the departure message by the carrier to CBP. The TAO will have access to any transaction changes that have been made via the ACE Portal.</p> <p>[SEE ATTACHMENT FOR DETAILED PROCESS FLOW DIAGRAMS]</p> <p style="text-align: right;"><i>Owner:</i> William Delansky</p>				
EXP-003	941	<p>"Export Batch Filing Methodology" BACKGROUND (This is a technology based requirement and subject to technology available at the time of implementation)</p> <ul style="list-style-type: none"> • It is required that any standards adopted for filing export commodity and transportation data must be consistent with the trade links to the Bureau of Customs and Border Protection (CBP) for other components of ACE. • Given the large investment in the existing links established to CBP by the trade (AMS, ABI, AES) the equivalent links to ACE should be evolutionary (not revolutionary), and as far as possible backwards compatible. • ACE should allow alternate Network suppliers (e.g. Sprint) for MQ communications to introduce competition. <p>USER REQUIREMENT RECOMMENDATION</p> <ol style="list-style-type: none"> 1. ACE should continue to support, for the foreseeable future, the existing methods of communication to CBP. At the current time these are primarily 1-800 Dial-up, SDLC, and VPN communication systems. 2. ACE should continue to support existing formats; Customs Propriety, X12, CATAIR, AESTIR 3. ACE development should ensure that all changes to existing formats are, as far as possible, backwards compatible. This means that if a new data item(s) or records are introduced they should be included in such a way that companies not required to send them will not have to alter their existing processors (file layouts). In other words added and not inserted in the middle of records. <p>Any introduction of XML based message should be offered on an optional basis.</p> <p style="text-align: right;"><i>Owner:</i> William Delansky</p>	12/18/2006	Pending	M3	<p>JULY 31, 2009 - THIS REQUIREMENT (CSPO-GIF-941) IS PENDING CBP CHANGE CONTROL BOARD REVIEW.</p> <p>This requirement was submitted to the CCR Team on December 18, 2006 as a placeholder for reference and development in a future ACE release. <i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
EXP-009		"Post Departure Filing" ACE must provide for the post departure electronic filing of export information by exporters or their authorized agents via the ACE web portal or via EDI transmission as defined in 15 CFR 30.63. for non licensed export shipments. More specifically, ACE must provide for a post-departure filing option, equivalent to the Census Bureau's AES post departure filing previously referred to as Option 4 as set out in 15 CFR 30.61(c).	12/18/2006	Withdrawn	M3	July 24, 2009 - This requirement is withdrawn. Census policy will not provide this capability. This requirement was submitted to the CCR Team on December 18, 2006 as a placeholder for reference and development in a future ACE release.
<i>Owner:</i> William Delansky						
EXP-010	893	" Creating Reports via ACE" Provide a tool via the ACE secure data portal that would give exporters and their authorized filers the ability to extract and download export data on outbound shipments for their own marketing strategies, compliance, and for other recordkeeping purposes. Exporters should have access to full export transaction data only when they are the USPPI on the export transaction and the transactions are not routed export transactions. For routed export transactions, exporters should have access to only the data they are required to provide under 15CFR30.4(c)(1). Authorized filers should have access only to the export data the filer filed. All information filed electronically must be available for downloading and extracting in report format. Export Reports for exporters, authorized agents, carriers and all other account types must be able to generate reports on data for which they are authorized to access.	12/18/2006	Pending	A3	JUNE 10, 2009 - THIS REQUIREMENT (CSPO-GIF-893) WAS APPROVED BY THE CCB. CBP AND CENSUS ARE DISCUSSING IMPLEMENTATION. MAY 28, 2009 - THIS REQUIREMENT (CSPO-GIF-893) WAS SUBMITTED TO CBP FOR CHANGE CONTROL BOARD (CCB) REVIEW. This requirement was submitted to the CCR Team on December 18, 2006 as a placeholder for reference and development in a future ACE release.

EXP-012	948	<p>"PROCESSING EXPORT CARNETS" the trade requires US Customs and Border Protection (CBP) to accept the electronic Shipper's Export Declaration (SED/ EEI) that is filed through ACE as one of the methods for proof of export for a closure of CARNET's. The ITN Number (ACE confirmation number issued to filer of SED) will be transmitted on the CARNET. The ITN number is a unique identifier on the transaction that indicates the exact export commodity data filed on behalf of a USPPI (US Principle Party of Interest) . The commodity data and export record provide substantial and necessary proof of export and meet the requirements for proof of export under Part 191.72. Proof of exportation requires proof of the date fact of exportation and identify of the exporter. The date of export will be on this record as provided by the carrier and the fact of exportation will be established by the information showing destination, vessel and specific description of the exported articles by Schedule B or HS number, quantity and value. The information contained in the SED should satisfy all of the requirements for proof of export. Information is filed by HTSUS or Schedule-B number (commodity details) and the transportation details are confirmed by all carriers (VOCC and NVOCC) filing their cargo manifest in advance of cargo loading for ocean carrier, prior to flight for air carriers and prior to crossing for all truck and rail carriers.. The cargo manifest details will be matched in ACE exactly to the commodity details by way of the ITN number. As mentioned above, we expect in 2005 the mandatory electronic filing of all SED information. We also expect the term "SED" to be changed to "EEI" (Electronic Export Information). This change will not change data elements required today in the export process.</p>	12/18/2006	Pending	M3	<p>JULY 31, 2009 - THIS REQUIREMENT (CSPO-GIF-948) IS PENDING CBP CHANGE CONTROL BOARD REVIEW.</p> <p>This requirement was submitted to the CCR Team on December 18, 2006 as a placeholder for reference and development in a future ACE release.</p>

EXP-014	950	"EXPORTS OUT OF A FOREIGN TRADE ZONE" Foreign Trade Zone Outbound/Export Requirements. This will serve as a placeholder for future development of export user requirements for exports out of a foreign trade zone. Direct & Indirect exports after entry - Export of merchandise directly out of the zone - Export of merchandise manufactured in the zone - NAFTA duty deferral merchandise - FTZ/Exports that require PGA release authority for export out of the zone (DEA, FWS, BIS, State, OFAC) - In-bond process - Close out the FTZ import with the export document (automated closeout within ACE) – requirements need to be focused on ACE! - OIT movement between U.S. & Puerto Rico - Bonded Warehouse movement?	12/18/2006	Pending	M3	JULY 31, 2009 - THIS REQUIREMENT (CSPO-GIF-950) IS PENDING CBP CHANGE CONTROL BOARD REVIEW. This requirement was submitted to the CCR Team on December 18, 2006 as a placeholder for reference and development in a future ACE release. This requirement also needs additional development in conjunction with the Foreign Trade Zone subcommittee of the Entry committee. <i>Owner:</i> William Delansky
EXP-015	951	"COMMUNICATING ERROR MESSAGES" ACE should provide a tool that would allow the exporter and their authorized agents a view of the ACE error messages so that the exporter can have visibility to the error messages for export transactions filed by a freight forwarder on behalf of the exporter.	12/18/2006	Pending	M3	JULY 31, 2009 - THIS REQUIREMENT (CSPO-GIF-951) IS PENDING CBP CHANGE CONTROL BOARD REVIEW. This requirement was submitted to the CCR Team on December 18, 2006 as a placeholder for reference and development in a future ACE release. <i>Owner:</i> William Delansky
Interface - 1	931	CBP should ensure that XML utilization for Trade interfaces complies with appropriate international standards.	7/25/2001	Accepted in Part	A1, A2, A3, M1, M2, M3	DETERMINED TO BE IN SCOPE FOR M1 July 16, 2009: THIS REQUIREMENT (GIF 931) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW Will be developed throughout the process. INT-1 and INT-7 have been combined and replaced by GIF 201 (submitted to CBP on 1/9/2006). The GIF was drafted to reflect XML among the list of recommended message formats. STATUS of GIF 201: This GIF has been referred to CBP for consideration at the enterprise level (Reviewed by CCR team June 2006-regular updates will be provided) <i>Owner:</i> Susan Maskell

Requirement #	GIF	TSN Requirement Description	Submission date	Status	Release (s)	Comments
Interface - 2	932	Whenever an ACE capability is successfully deployed that would replace a legacy interface capability, the legacy interface will be supported for five years. In the event that use of the legacy interface by Trade partners ceases, the older interface may be eliminated in less than five years.	7/25/2001	Accepted in Part	A1, A2, A3, M1, M2, M3	<p>July 16, 2009: THIS REQUIREMENT (GIF 932) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW</p> <p>Subject to CBP policy considerations.</p> <p>INT-2 has been replaced by GIF 202 (submitted to CBP on 1/9/2006). The GIF was drafted to also recommend a phased deployment for ACE when replacing legacy systems. STATUS of GIF 202: This GIF has been withdrawn by the committee: the policy decision to pursue a big bang deployment strategy has already been made by CBP.</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p>
				<i>Owner:</i>	Susan Maskell	
Interface - 3		Image transfer will be supported under ACE. E-Customs Partnership to choose and document image format (e.g., TIFF, JPEG, etc.).	7/25/2001	Withdrawn	A2.3	<p>STATUS of GIF 200: Withdrawn by the Committee on 2/27/06: CBP has already decided to approve the imaging of scanned documents.</p> <p>Refer to BUS-002-HL.</p> <p>BUS-001, BUS-002, and INT-3 have been combined and replaced by GIF 200 (submitted to CBP 1/9/2006). The GIF was drafted to recommend the imaging of scanned documents. (Reviewed by CCR team June 2006-regular updates will be provided)</p>
				<i>Owner:</i>	Susan Maskell	
Interface - 4		The existing CBP toll-free lines for system access will be discontinued under ACE.	7/25/2001	Withdrawn	2, 3, 4	<p>This requirement has been overtaken by events Not technically an ACE system requirement.</p>
				<i>Owner:</i>	Susan Maskell	
Interface - 5		Trade interactions with ACE will be secure in accordance with the Trade Secrets Act.	7/25/2001	Withdrawn	3, 4, A1, A2, A3, M1, M2, M3	<p>Pursuant to a decision reached at the June 2004, Plenary Session and documented in the Transition_TSIS Committee Meeting Report, dated June 30, 2004). This requirement can be closed out since it is something that can be accomplished within the current ACE structure.</p> <p>This requirement has been withdrawn (request for withdrawal was submitted to CBP on 9/18/04)</p>
				<i>Owner:</i>	Susan Maskell	

Requirement #	GIF	TSN Requirement Description	Submission date	Status	Release (s)	Comments
Interface - 6		ACE will provide for the following modes of communication with Trade partners: Direct Connect using dedicated links, Internet Connect using EDI transmissions, Web Access over Internet for account management, Transponder for truck identification, Broadcast capabilities for CBP-to-Trade push of informational messages. The TSN Trade Interface Subcommittee- ACE Requirements document, Version 2.0 of 17 Jan 01, provides more detailed descriptions of communications modes.	7/25/2001	Withdrawn	3, 4, A1, A2, A3, M1, M2, M3	2/29/08: Subsequent to Committee review, this requirement has been withdrawn (i.e., overtaken by events). Subject to CBP policy considerations. (Reviewed by CCR team June 2006-regular updates will be provided)
				<i>Owner:</i>	Susan Maskell	
Interface - 7	931	CBP will support multiple EDI standards. A. ACE will permit transmission by the EDI standards listed below. Further, that mapping between standards will be provided for all message types: ANSI X-12 UN/EDIFACT CATAIR CAMIR AESTIR Cargo IMP (CBP Implementation will be more closely aligned with IATA standards)	7/25/2001	Replaced	3, 4, A1, A2, A3, M1, M2, M3	THIS REQUIREMENT HAS BEEN COMBINED WITH INT-1 AND WILL BE BROUGHT FORWARD AS PART OF INT-1 (CSPO-GIF-931) 062909: Existing functionality, if carried through to M1 and future releases, will meet this trade requirement. Access to communication modes dependent on CBP determination. INT-1 and INT-7 have been combined and replaced by GIF 201 (submitted to CBP on 1/9/2006). The GIF was drafted to reflect XML among the list of recommended message formats. STATUS of GIF 201: This GIF has been referred to CBP for consideration at the enterprise level (Reviewed by CCR team June 2006-regular updates will be provided)
				<i>Owner:</i>	Susan Maskell	
Interface - 8		CBP will support multiple connectivity options, including direct connect, internet connect, web access, transponder, PDA and broadcast.	7/25/2001	Withdrawn	3, 4, A1, A2, A3, M1, M2, M3	This recommendation is covered by Interface 6.
				<i>Owner:</i>	Susan Maskell	
Interface - 9	934	All communications modes, exclusive of uncontrollable aspects of the Internet, must be available 24 hours a day, every day of the year. Performance of communications modes, exclusive of uncontrollable aspects of the Internet, must be demonstrably within industry norms. Comparison of performance metrics for similar communications implementations should be used to set nominal response time for those developed by eCP.	7/25/2001	Accepted in Part	2, 3, 4, A1, A2, A3, M1, M2, M3	DETERMINED TO BE IN SCOPE FOR M1 JULY 16, 2009: THIS REQUIREMENT(GIF 934) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW. (Reviewed by CCR team June 2006-regular updates will be provided)

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ITD-001		Appeal Process for ITDS applications and participants for Track 4 (preferred) Processing Notification of Adverse Action notification to trade participants when a proposal to revoke participation is made. Establish a 2-step appeal process.	7/27/2001	Replaced	M3	Withdrawn by Committee August 2004.
		<i>Owner:</i>	Susan Dyszel			
ITD-002		Importer Application/rejection/amendment/removal/appeal/process. FDA and NHTSA should participate in the track 4 (preferred processing) process modeled after AES option 4.	7/27/2001	Withdrawn	2	Withdrawn by Committee August 2004.
		<i>Owner:</i>	Susan Dyszel			
ITD-003		Carrier crew & conveyance registration. Before filing a motor freight manifest, carriers will complete a one-time electronic registration of each of their conveyances and crew members.	7/27/2001	Withdrawn	2	Withdrawn by the Committee.
		<i>Owner:</i>	Susan Dyszel			
ITD-004		Census Country of Ultimate Destination. If imported merchandise will subsequently be exported, the country of ultimate destination will be reported in the entry summary line item.	7/27/2001	Withdrawn	A2.2	Under review by Bureau of Census. On 9.15.2004, CBP formally referred to Bureau of Census. This requirement was determined to be an internal Census (PGA) requirement and will be tracked by the eCP/ITDS team. Therefore it was withdrawn as an ITDS committee requirement.
		<i>Owner:</i>	Susan Dyszel			
ITD-005		Census Override Reason Code. Override codes will be used to respond to warning errors. Census will provide a list of override codes. The trade will have the ability to report multiple override codes on an entry summary line.	7/27/2001	Withdrawn	A2.2	On 9.15.2004, CBP formally referred this requirement to Census. Also pending review by Census. This requirement was determined to be an internal Census (PGA) requirement and will be tracked by the eCP/ITDS team. Therefore it was withdrawn as an ITDS committee requirement.
		<i>Owner:</i>	Susan Dyszel			

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ITD-006		FCC: Entry Summary. For all preferred (FAST) shipments FCC data for reported commodities will be collected in the entry summary. FCC data will be similar to that currently collected in ABI except that ITDS data standards will be adopted to the extent possible.	7/27/2001	Accepted	A2	<p>4/18/2007 - This requirement was accepted by CBP. This requirement is included in the FCC CONOPS that was approved by OFO on December 16, 2006. The ITDS team is working with the CCR team to implement this requirement in ACE.</p> <p>5/8/2006: FCC has reviewed this requirement and agrees that this information is correct.</p> <p>1/20/06: The FCC has requested in their ConOps that FCC form 740 data continue to be an option for electronic filing by the trade in ACE. FCC has also requested an FCC ID no. validation check in ACE. FCC has requested ACE Portal access to conduct research and analysis on FCC related HTS numbers and has also requested a periodic extract of FCC related data.</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p>
				<i>Owner:</i>	Susan Dyszel	
ITD-007		FDA: Cargo Examination (track 4). When a track 4 shipment is selected for examination, FDA data for the reported commodities will also be collected. A. ACE will permit transmission by the EDI standards listed below. Further, that mapping between standards will be provided for all message types.	7/27/2001	Withdrawn	M3	Withdrawn by Committee August 2004.
				<i>Owner:</i>	Susan Dyszel	
ITD-008		FDA: Entry Summary for track 4 shipments without examination where commodity data is not submitted until entry summary data is filed. The FDA data collected will be similar to that currently collected in ABI.	7/27/2001	Withdrawn	M3	Withdrawn by Committee August 2004.
				<i>Owner:</i>	Susan Dyszel	
ITD-009		FDA: Arrival/Release. FDA staff will be available to make cargo release decision at all hours when a motor freight port is open.	7/27/2001	Withdrawn	M3	Withdrawn by Committee August 2004.
				<i>Owner:</i>	Susan Dyszel	
ITD-010		Arrival/Release. FMCSA will release all trucks if no safety official authorized by DOT is on duty when the truck arrives at the inspection booth.	7/27/2001	Withdrawn	M3	Withdrawn by Committee August 2004.
				<i>Owner:</i>	Susan Dyszel	

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ITD-011		Importer Track 4 application/approval/rejection/amendment process. Track 4 applications should be accepted electronically and ITDS should provide prompt electronic response reflecting decisions of all PGAs.	7/27/2001	Withdrawn	M3	Withdrawn by Committee August 2004.
		<i>Owner:</i> Susan Dyszel				
ITD-012		Assignment of a unique ITDS Registration Number for each certified track 4 transaction at the shipment level detail.	7/27/2001	Withdrawn	M3	Withdrawn by Committee August 2004.
		<i>Owner:</i> Susan Dyszel				
ITD-013		Application of Risk Management Principles to identify, approve and create accounts.	7/27/2001	Withdrawn	M3	Withdrawn by Committee August 2004.
		<i>Owner:</i> Susan Dyszel				
ITD-014		Motor Freight Manifest. The carrier will transmit manifest data at least five minutes before arrival at the inspection booth. CBP will perform risk assessment using complete manifest data.	7/27/2001	Withdrawn	M2.3	Withdrawn by Committee August 2004.
		<i>Owner:</i> Susan Dyszel				
ITD-015	1057	NHTSA: Entry Summary for all preferred shipments. NHTSA data will be collected in the entry summary similar to that currently collected in the ABI.	7/27/2001	Pending	M2	<p>SEPTEMBER 17, 2009 - THIS REQUIREMENT (CSPO-GIF-1057) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.</p> <p>4/18/2007: This requirement was accepted by CBP on 2/16/07 and is included in the NHTSA CONOPS. The NHTSA CONOPS is still pending OFO approval. This is also a cargo release requirement and will be worked by the CCR team. The ITDS team will work with the CCR team to implement this requirement.</p> <p>This requirement was submitted to the ITDS Board (December 2004) for PSG and ACE Support Team review. A meeting was held with NHTSA to discuss on March 8, 2005. The requirement was revised per NHTSA requirements. NHTSA has requested in their ConOps that Form HS-7 data continue to be an option for electronic filing by the trade in ACE as it currently is in ACS/ABI. NHTSA proposes in their ConOps the electronic exchange of information with ACE including the electronic communication of potential admissibility decisions and a mechanism to allow NHTSA's authorized users to maintain and update registered importer information for vehicle entry data validation and screening.</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p>

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ITD-016		Pre-Registration to allow trade participants to pre-file electronic data with ITDS for the purposes of establishing accounts to create databases.	7/27/2001	Withdrawn	2	Withdrawn by Committee August 2004.
			<i>Owner:</i>	Susan Dyszel		
ITD-017		Account Access. The ITDS system must allow access to information and functions through the account structure.	7/27/2001	Withdrawn	2	Withdrawn by Committee August 2004.
			<i>Owner:</i>	Susan Dyszel		
ITD-018		Electronic Acceptance of Data: Electronic Notification of Acceptance of Registration.	7/27/2001	Withdrawn	2	Withdrawn by Committee August 2004.
			<i>Owner:</i>	Susan Dyszel		
ITD-019		Registration Data Available to the Trade (dependent on ITD-012 assignment of registration numbers.)	7/27/2001	Rejected	M2.3	Rejected by CBP because of privacy/Trade Secrets concerns on 9.15.2004
			<i>Owner:</i>	Susan Dyszel		
ITD-020		System Availability and Response Time: ITDS must establish systemic redundancies to help ensure processing is available on a 24/7 basis.	9/4/2001	Withdrawn	M3	4/18/2007: This is not an ACE system requirement. CBP holds this as pending with the recommendation that the committee ignore this since system performance is a more global issue than just ITDS. Requirements in Performance Architecture and Measurement Management (PAMM) for all transaction based (import and export) processes. Not mapped to any BPD Level 3.
			<i>Owner:</i>	Susan Dyszel		
ITD-021.1		PGAs who participate in importer application, approval, amendment and removal processes for any importer /exporter expedited processes must also participate in an approved process for appeals.	8/1/2004	Rejected	M3	Replaces ITD-001. CBP Co-Chair will take under advisement. This requirement is rejected by CBP as a non ACE system requirement. This is an internal CBP/PGA policy issue. (Reviewed by CCR team June 2006-regular updates will be provided)
			<i>Owner:</i>	Susan Dyszel		
ITD-021.2		In cases where an application for expedited import/export process program (CBP or PGA) is denied, written notice and an appeals process will be owed.		Withdrawn	A2, A3, M1, M2, M3	This is not an ACE system requirement. Does not map to any BPD Level 3. Will be handled as a CBP/PGA policy issue. (Reviewed by CCR team June 2006-regular updates will be provided)
			<i>Owner:</i>	Susan Dyszel		

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ITD-022		PGAs who participate in ACE must also participate in any CBP expedited program such as CTPAT or Fast.	8/1/2004	Rejected	M3	<p>This is not an ACE system requirements. Will be handled as an internal CBP/PGA policy matter. Requires CBP HQS input. Replaces ITD-002 and ITD-013. This requirement is rejected by CBP as a non ACE system requirement. This is an internal CBP/PGA Policy issue.</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p> <p><i>Owner:</i> Susan Dyszel</p>
ITD-023	1031	FDA CARGO EXAM/ENTRY ARRIVAL/RELEASE: In any replacement for FAST or any new expedited cargo system, CBP cargo shipments governed by the BTA will be handled in an expedited manner--random across-the board exams.	8/1/2004	Rejected	CR	<p>SEPTEMBER 16, 2011 - Per legal policy review this requirement is rejected for cargo release. Statutory limitations prohibit CBP from making adjustments per FDA requirements.</p> <p>SEPTEMBER 4, 2009 - THIS REQUIREMENT (CSPO-GIF-1031) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.</p> <p>4/18/2007: This is cargo release function and will be handled by the cargo control and release team. Pending CBP/HQ review and approval. Replaces ITD-007 through ITD-009. On 9.15.2004 CBP referred to FDA. This requirement was submitted for ITDS/PSG and ACE Support Team review in December 2004. Per FDA in that the Bioterrorism Act has been in place for some time now and based on the current processing environment in ACS for food and commodities subject to prior notice requirements.....is this trade requirement still applicable. FDA is not a participant in FAST and therefore FDA regulated goods, including foods are not subject to CBPs FAST requirements. This requirement will be further discussed by FDA and CBP.</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p> <p><i>Owner:</i> Susan Dyszel</p>
ITDS-023.2		Non-BTA governed FDA FAST shipments: If no cargo exam, FDA information should be submitted with the entry summary.	8/1/2004	Rejected	A2, M1, M2	<p>REJECTED: FDA will not allow submission on their data with the entry summary. Cargo will not be released until the entry summary is released. Referred to FDA. CBP/FDA policy issue.</p> <p><i>Owner:</i> Susan Dyszel</p>
ITD-023.3		FDA Staff will be available to make cargo release decisions at all hours when a motor freight port is open.	8/1/2004	Withdrawn	M3	<p>This not an ACE system requirement. -Withdrawn by ITDS committee This is a policy determination, not a requirement. Referred to FDA by CBP on 9.15.2004. CBP/FDA policy issue.</p> <p><i>Owner:</i> Susan Dyszel</p>

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ITD-024	1058	Import/Export Release Coordination. ACE needs to ensure CBP will not release a shipment until all appropriate PGAs have also released the shipment. CBP will coordinate such releases with the appropriate PGA.		Pending	CR	<p>SEPTEMBER 17, 2009- THIS REQUIREMENT (CSPO-GIF-1058) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.</p> <p>4/18/2007: ACE shall withhold final release until all PGA admissibility requirements have been satisfied. (REF: RSSTD.092.030). This requirement is accepted by CBP and CBP will work with the PGAs to implement.</p> <p>This requirement requires further review by CBP. This will require release coordination policy decisions between CBP and the specific PGA.</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p>

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
ITD-028	1062	<p>FDA should automate all paper documentation. Where the FDA requires additional information, the FDA should send electronic notification to the impacted party of the information required. The impacted party should be able to send in any additional documentation/information that is required electronically.</p> <p>a. The automation of forms is necessary to expedite the release of merchandise and eliminate the need for mailing paper documents to FDA when additional documentation is requested.</p> <p>b. Elimination of the Paper FDA 2877. Requirements captured in the CATAIR for automation of the FDA "declaration upon importation" were completed in the mid 1990's. Although the FDA OASIS system was programmed to capture the required elements, certain data elements such as the FDA Accession Number, were not included, rendering the submission of the paper FDA 2877 Document to still be required. (NOTE: Since the FDA Accession Number and Machine Type/Part Number elements are essential to the FDA Port Specialists review, various ports have requested importers/brokers to 'redesign' their systems to force fit this information into electronic data fields that are viewable in OASIS.) Once the information is received within the system, whether via the paper 2877 or electronic force feed, the FDA must manually review the data for accuracy. Transmission of data into standard formats to allow for electronic/systematic review of the information is needed to facilitate safe and secure trade. Further, the System must accommodate any new bond forms that may arise from time to time.</p>	9/20/2004	Accepted	CR	<p>SEPTEMBER 16, 2011 - Per legal policy review this requirement can be considered accepted as the PGA message set or Interoperability web services functionality will cover the automation of PGA forms.</p> <p>SEPTEMBER 17, 2009 - THIS REQUIREMENT (CSPO-GIF-1062) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.</p> <p>FDA has plans to automate all forms for ACE integration. This requirement will be monitored by the CCR team.</p> <p>1/19/2007: FDA has identified in their CONOPS that the FDA form 2877 will be automated and collected electronically from the trade.</p> <p>2/3/2006: FDA Form 2877, if complete, may be submitted electronically via ABI/ACS. An accession number may be added in the data field for affirmation of compliance. FDA will include this requirement in its CONOPS.</p> <p>This requirement was submitted for ITDS/PSG and ACE Support Team review in December 2004. Per FDA Form 2877 if complete, may be submitted electronically via ABI. An accession number may be added in the data field for affirmation of compliance. FDA will include a requirement in its ConOps a requirement that will address this trade issue. This will require further CBP/FDA policy discussions.</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p>

ITD-031	1032	<p>FDA and CBP should coordinate their needs to eliminate the redundant request for information regarding some automotive service parts.</p> <p>Certain imports of automotive service parts (for example, certain electronic transmission devices such as DVD, CD players, radios, etc) are subject to FDA clearance. Prior to importing those parts, the parts manufacturers obtain a certificate of conformity from the FDA. The FDA then verifies the conformity of certification based on the manufacturer's name and accession number with the importer.</p> <p>For CBP purposes, under the current ACS environment, the importer must again identify the manufacturer and accession number from the manufacturer in order to import the products. This process seems redundant.</p> <p>ACE should allow for the elimination of this redundancy. The importer should only be subject to this verification process once.</p>	9/20/2004	Rejected	CR	<p>JANUARY 11, 2012 - This requirement is rejected and will be coordinated with FDA. FDA has already provided the data set CBP needs to capture. Trade should follow up with FDA if they have issues.</p> <p>SEPTEMBER 16, 2011 - This requirement is pending CBP L/P Input for cargo release and further discussion with ITDS Board and FDA.</p> <p>SEPTEMBER 4, 2009 - THIS REQUIREMENT (CSPO-GIF-1032) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.</p> <p>4/18/2007: The ITDS ACE Support Team is discussing the status of this requirement with FDA.</p> <p>2/3/2006: FDA regulates electronic devices, such as CD players. FDA will discuss this requirement with CBP and determine if ACE/ITDS will remove this ACE redundancy (i.e. the need for both FDA and CBP to examine foreign manufacturer, accession number, etc., before the product may proceed to U.S. commerce.</p> <p>This requirement was submitted to ITDS/PSG and the ACE Support Team in December 2004. FDA will discuss this requirement with CBP and determine whether ACE will remove this ACS redundancy, i.e. the need for both FDA and CBP to examine foreign manufacturer, accession number, etc. before a product may proceed into U.S. commerce. This requirement is on hold pending further information from CBP and FDA. Referred to FDA. CBP/FDA policy issue</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p>

ITD-032	1057	<p>EPA, NHTSA and CBP should coordinate their needs to eliminate the redundant request for information regarding OEM (original equipment manufacturer) imports.</p> <p>A.NHTSA: o For NHTSA purposes, OEMs are required to file HS-7 for every customs entries at the VIN (Vehicle Identification Number) level detail. In many cases, all impacted imports are "conforming vehicles" which conform to the NHTSA standards. As each customs entry includes a few thousand conforming vehicles, a corresponding number of VINs data must be submitted to NHTSA. o A few years ago, NHTSA implemented an electronic interface with ACS/ABI. Currently, VINs are transmitted electronically in conjunction with the customs entry. o A similar type of electronic transmission is expected under ACE.</p> <p>b. EPA: o Under ACS, EPA updated its procedure for OEM imports several years ago. other current procedure allows the importer not to have to submit the EPA form 3520 if the vehicle is conforming to the EPA regulations (i.e., Clean Air Act, etc.). o A similar process is expected under ACE.</p>	9/20/2004	Replaced	M2	<p>This requirement is covered under ITD-015 which has been accepted by CBP/</p> <p>This requirement was submitted to ITDS/PSG and the ACE Support Team in December 2004. NHTSA and EPA have indicated in their ACE ConOps that both agencies intend to collect the VIN data elements and associated OEM import information through ACE. This information will be mapped to the same data elements in ACE and shared with agencies that require it. The PGAs expect ACE to eliminate all redundant request for OEM.</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p>

ITD-038	1033	<p>U.S. FISH & WILDLIFE SERVICE ENTRIES: On July 3, 2000, Customs brokers were no longer allowed to file USFWS entries using the CBP ACS Automated Broker Interface (ABI). According to USFWS, numerous problems were encountered using the broker interface to file and collect wildlife data.</p> <p>As an alternative, USFWS developed an Internet-based filing system for all USFWS imports and exports, This system, named "eDecs", was created to replace the USFWS's portion of CBP's ACS Automated Broker Interface.</p> <p>eDecs requires that brokers and importers/exporters file an electronic version of the FWS form 3-177 (Declaration for Importation or Exportation of Fish or Wildlife), prior to shipment, with the port where the import/export would occur. The declaration is transmitted directly to USFWS outside of the current ACS system. USFWS then sends e-mail notifications to convey status of the submission such as acceptance or rejection. Filers must set up separate Account containing information such as name, email and physical address, telephone number and importer number. This is cumbersome, for filers with many employees and numerous release offices.</p> <p>The functionality of eDecs is limited. When a form is transmitted electronically, a hard copy package must still be submitted. This is redundant and costly.</p> <p>BENEFITS for USFWS AS A PARTICIPATING GOVERNMENT AGENCY under ACE:</p> <p>USFWS will have the ability to submit selectivity criteria to CBP for input into the ACE system, similar to what is currently working with FDA.</p> <p>Utilizing ACE, will allow a flag of tariff data requiring USFWS information to ensure data is consistently provided to USFWS when required.</p> <p>Reduced Operating Costs: The automated workflow and electronic dissemination of data will reduce the paper-based administrative processes currently existing for both government and industry.</p>	9/20/2004	Accepted	CR	<p>SEPTEMBER 16, 2011- Per legal policy review this requirement can be considered accepted as the PGA message set will cover this.</p> <p>SEPTEMBER 4, 2009 - THIS REQUIREMENT (CSPO-GIF-1033) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.</p> <p>4/18/2007: FWS will be able to receive information from ACE if filed electronically. At this point FWS cannot get rid of all paper documentation. The ACE/ITDS support team is working with FWS on this issue. Further updates will be provided.</p> <p>2/6/2007: For imports, this requirement has been submitted to the CCR development team as requirment 247 for the M2 drop.</p> <p>1/25/2006: FWS proposes in their CONOPS to electronically integrate eDecs filing with ACE including the electronic communication of the admissability decision. The FWS CONOPS is being reviewed by CBP and the ACE Support team.</p> <p>This requirement was submitted to the ITDS/PSG and ACE Support team in December 2004. FWS proposes in their ConOps to electronically integrate "eDecs" filing with ACE including the electronic communication of the admissability decision. Will require CBP approval.</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p>

ITD-040	1104	HARMONIZATION OF MANIFEST DATA ELEMENTS WITH WCO DATA MODEL Shipment data, whether cargo-related or conveyance-related, is standard across all supply chains, whether domestic or international. What varies is the government definition of each data element. As various governments require or contemplate the requirement of data to be supplied by the private sector, governments are challenged to identify and communicate the specific data they desire. Conversely, the multitude of entities participating in the private sector are challenged to understand data definitions as proposed by the multitude of governments. This proposal recommends working toward adoption of the WCO Data Model as a data definition library for the harmonization of manifest elements. Allows both public and private participants to have a common understanding of data elements, reduce confusion as to data element definitions, make rulemaking and implementation more efficient by reducing costs associated with parallel programming and system support.	11/10/2009	Rejected	M1	<p>DETERMINED TO BE OUT OF SCOPE FOR M1</p> <p>NOVEMBER 10, 2009 - THIS REQUIREMENT (CSPO-GIF-1104) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.</p>

MMM-HL-002	1013	Standardization of cargo and conveyance information for all modes of transportation for import and export. A. Single enterprise architecture for all modes. B. Common manifest (common reporting of cargo & conveyance detail). C. Common set of operating procedures for CBP. D. Common user interface.	8/27/2001	Pending	4, M1, M2.1 M2.2, M3	<p>DETERMINED TO BE IN SCOPE FOR M1</p> <p>SEPTEMBER 2, 2009 - THIS REQUIREMENT (CSPO-GIF-1013) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.</p> <p>July 2009 - MMM committee recommends that this requirement remain open for continued review until ACE is delivered.</p> <p>4/11/07 -The below issues are included in the CBP requirements set: - "ACE shall transmit response messages for EDI transactions to authorized users utilizing the ANSI-X-12 standard" - "ACE shall transmit response messages for EDI transactions to authorized users utilizing the CAMIR standard" - "ACE shall produce EDI responses in the same format as the original EDI input." - ":ACE shall transmit outgoing Notifidcation messages to authorized users utilizing the ANSI-X-12 statndard." - "ACE shall transmit outgoing Nootification messages to authorized users utilizing the CAMIR standard." - "ACE shall produce outgoing Notifications in the format specified by the recipient's EDI profile." - "ACE shall support broker downloads for all modes of transportation." - "ACE shall provide the capability to receive house BOLs from all modes of transportation.</p> <p>Initial functionality begins with truck manifest in Release 4 and will continue in M1, M2, M3 & M4 for the rest of the modes and completed with exports and the single multi-modal manifest.</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p> <p><i>Owner:</i> Vincent Annunziato</p>
MMM-HL-003	1014	AUTOMATE THE TRANSFER OF CUSTODIAL AND MANIFEST LIABILITY: Proposal: That the bond of the border crossing or importing carrier be the one obligated, but that the bond and associated manifest liability be transferred to the next bonded carrier in the route of movement at time of cargo interchange. This will result in the bond obligation becoming officially resident with the carrier who has care and control of the shipment. This transfer of liability would take place with CBP using the ACE (or AMS) system by all participating carriers. The In-Bond carrier would be identified by their I.R.S. number and the CBP unique identifier (which may be equivalent to the SCAC).	8/31/2001	Pending	M1, M2.1, M2.2, M3	<p>DETERMINED TO BE IN SCOPE FOR M1</p> <p>SEPTEMBER 2, 2009 - THIS REQUIREMENT (CSPO-GIF-1014) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.</p> <p>July 2009 - Need to determine if a GIF should be submitted for CBP CCB review.</p> <p>4/11/07 - This requirement has been included in the CBP requirements set - "ACE shall provide the capability for an authorized user to submit a transfer of liability."</p> <p><i>Owner:</i> Vincent Annunziato</p>

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
MMM-HL-004		Carriers should be responsible and held accountable for transportation data only. Unmatched piece counts should not be the responsibility of the carrier to resolve nor should it hold up delivery of cargo.	9/4/2001	Rejected	M3	July 2009 - Rejected status Subject to CBP policy determination. Not an ACE systems requirement.
				<i>Owner:</i>	Vincent Annunziato	
MMM-HL-005		CBP regulations currently require a separate identifying control number for each part of a split shipment. The air waybill number is used for the first part of the split and individual CBP 7512 control numbers are assigned to each subsequent part of the split shipment. Retain option of using the V number.	8/31/2001	Pending CBP L/P Input	M2.1, M2.2	Ju 2009 - This requirement needs further clarification from the MMM committee. 4/11/07 - This requirement has been included in the CBP requirements set - "ACE shall allow the same In-Bond number to be used on all parts of an air split shipment." Subject to CBP policy determination and possible regulatory changes. (Reviewed by CCR team June 2006-regular updates will be provided)
				<i>Owner:</i>	Vincent Annunziato	
MMM-HL-006		Expand the Customs Automated Forms Entry Systems (CAFES) pilot program to all modes of transportation and to all ports with high levels of in-bond traffic. A. Every mode should be able to use all capabilities. B. Small entities should be able to access the electronic system.	9/4/2001	Withdrawn	M1, M2.1, M2.2, M3	July 2009 - 7512 CAFES are being phased out. This requirement is withdrawn. 4/11/07 - (Truck Arrival) "ACE shall accept in-bond data transmitted by barcode reader in CAFES format." ACE will support CAFES in Truck Manifest Release 4. Comments from review with T.F. on 6/7/04: A. Electronic In-Bond System (one system) - Prelim CBP Approval B. Expand CBP CAFES - Further Evaluation Required. (Reviewed by CCR team June 2006-regular updates will be provided)

MMM-HL-043.	1050	<p>MMM-HL-043.8-M2.1-MAWB inbond versus HAWB inbond:</p> <p>8. MAWB inbond versus HAWB inbond (Current process)</p> <p>Although the ability of the forwarder and broker to submit electronic inbond requests at HAWB level is beneficial, it causes processing problems on occasion for the importing carrier.</p> <ul style="list-style-type: none"> • An Inbond at HAWB level can be submitted prior to the MAWB information being transmitted. Should this occur, if the importing carrier transmits their inbond request at MAWB level and their intended Customs destination is a non-automated location, the carrier's inbond request is denied. The carrier must contact the forwarder or broker, determine which HAWB has the TRN that is blocking the MAWB TRN and have them cancel it. • Sometimes the TRN at MAWB level or the MAWB transmission is cancelled because adjustments must be made. If there are existing TRNs at HAWB level, they block the carrier from re-establishing an inbond TRN at MAWB, Error 185 is received: "Transfer at HAWB: MAWB transfer is invalid". <p>Many conventional carriers transport shipments for Express carriers through purchased lift or blocked space agreements. Both of the above scenarios are extremely problematic if the conventional carrier is trying to report or correct a MAWB that has hundreds of express HAWBS.</p> <p>(Suggested process)</p> <p>Inbonds at the MAWB level and the HAWB level should be processed independently from each other.</p> <ul style="list-style-type: none"> • Including the Customs origin and Destination city codes in TRN lines will specifically identify inbond legs that are being requested at each level • HAWB inbond should continue to be able to be requested before the MAWB is sent. • HAWB inbond request could be accepted by the system with a notification back to the sender, by either conditional status code or text message. • On arrival of MAWB at the HAWB inbond origination point, the HAWB inbond will receive the 1D status approving movement. • It is assumed that there is some type of arrival indicator on the MAWB record: <ul style="list-style-type: none"> Direct ArrivalATA time manually entered or by message Permit to Proceed - Permit to Proceed arrival date/location Inbond movement - SN3 transmitted 	9/14/2009	Pending	M2.1	SEPTEMBER 14, 2009 - THIS REQUIREMENT (CSPO-GIF-1050) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.

MMM-HL-050	497	<p>DEFAULT TRIP EQUIPMENT TO SHIPMENT: The process of associating a shipment to a piece of equipment is very laborious. When creating a shipment record it is required that you identify what equipment the shipment is located in. Most of the time a carrier has identified the equipment in the trip section of the manifest prior to entering shipment records. However, the carrier currently is required to drop down a list from which he is to choose Account, Create One Time, Conveyance or Trip. Once selected he must continue to identify the equipment then wait for more details to be displayed on a separate screen from which he must finally click continue.If the equipment changes then the user must change every shipment record, this causes a great deal of re-work and increases chance for error. Equipment can change for many reasons, i.e. out of service, equipment failure, user error.When the user arrives at the shipment screen we should have the equipment that was reported in the trip already associated with the shipment. The user should be able to immediately proceed to the commodity screens. The option to report that the commodities are located in the conveyance should remain for the user to override if necessary. If there is more than one piece of equipment reported in the trip then the user should be required to select which equipment the commodity is loaded in.If a user chooses to change the equipment in the trip screen ask the user if they wish to change the equipment in all attached shipments.</p>	1/17/2007	Pending	R4	MAY 30, 2007- THIS REQUIREMENT WAS ACCEPTED BY THE CBP CHANGE CONTROL BOARD AND WILL BE IMPLEMENTED IN M2.2

MMM-HL-070	1100	<p>AUTOMATION OF BONDED CARGO PROCESSING UTILIZING THE SECURURE ACE WEB PORTAL:</p> <p>Current Business Scenario: An extremely large amount of bonded cargo movements are made daily into and out of our U.S. Ports using a manual (paper) process. In particular PTT, I.T., T&E and I.E. bonded cargo moves are provided by many local bonded cargo service providers. Many of these service providers are small to mid sized companies. Although small to mid sized, most of these companies share the same desire to automate their business processes for improved efficiencies wherever it can be financially justified. Today, the only option to have some automation in the areas noted is through the AMS system which is an EDI based solution. An EDI solution works great for those companies that are processing hundreds or thousands of shipments daily. It is recognized as an efficient solution that with those high volumes can be financially justified by large national or world wide businesses. However when it comes to delivering, handling or managing that bonded cargo once it has arrived in the U.S., those shipments become many individual Bonded shipments handled by service providers that cannot justify the expense of supporting an EDI solution. The manual paper processing, increases costs to the trade, CBP and the consumer through process inefficiencies. The manual paper process also adds to cargo delays and a greater risk of inaccurate information being provided through rewritten information being transposed or misinterpreted.</p> <p>Substantial progress has been made in the automation of the in-bond process to provide for increased visibility, transparency and accountability of bonded movements through US Commerce. This automation has been designed as an enhancement to the systemic transmissions of bonded messages for those who currently enjoy the use of the ABI and AMS communications with CBP. Unfortunately the enhancements proposed and designed do not address the gap that remains for the voluminous number of providers who do not have access nor monetary funds to support the communication methods available to large scale operations. Without the appropriate means to address the gap, small to mid-size providers will remain in the unavoidable and unfortunate position of continued use of manual, paper processing for bonded movements, the persistent use of which will serve to undermine the integrity of the intent of the automation efforts as well as continue to drive unnecessary voids in the accurate reporting of</p>	11/3/2009	Rejected	M1	<p>FEBRUARY 8, 2011-This GIF was determined to be NOT IN SCOPE for cargo release. bonded transactions to Congress and the GAO. There are distinct advantages for the inclusiveness of large numbers of currently non-automated service providers in a simple and inexpensive process, allowing for a more seamless automated data trail for in bond movement.

While the ACE Web Portal is primarily a reporting tool, and not a transaction engine, exceptions have been made where there is a recognized barrier to entry for EDI automation. An example would be the truck manifest in which data entry capabilities were added to the portal to address the carriers that would not invest in EDI. The same situation exists in the area of bonded movements where a large number of transactions are not initiated by members of the trade already participating in EDI filing.

Description of Recommended Change:
The solution is to utilize the current Secure ACE Web Portal to allow these small to mid sized bonded service providers the ability to automate all bonded transactions currently available through the automation communications, to include initiation, arrival, diversion and quantity updates.

As an example and a high level overview the following is a basic sample of how one of the processes might be processed through the Secure ACE Web Portal. In the case of the Trucker, Container Freight Station (CFS), Bonded Warehouse, G.O. Warehouse, Foreign Trade Zone (FTZ) etc. who needs to process a bonded shipment from or to a port, they could submit an electronic PTT, I.T., T&E or I.E. through the secure ACE Web Portal by:

1. Log onto the Secure ACE Web Portal and proceed via link to the "Bonded Shipment Processing" screen where they will choose from a button to "Create" or a button to "Query".
2. If the company chooses the "Create" button they would be provided choices of a PTT, I.T., T&E or I.E. If they chose I.T., functionality would allow the user to input the appropriate information into a screen and then click on a button to submit for authorization. The system would return a message verifying authorization has been granted. Documents could be printed for file reference and a copy to travel with the shipment as necessary. At the destination (Bonded Facility) the shipment could be arrived through the Secure ACE Web Portal. The destination location would sign-on to the Secure ACE Web Portal and from the "Bonded Shipment Processing" link they would choose "Amend" and

then choose "Arrive Bonded Shipment". The user would then click on the appropriate shipment. This would then open a window that would allow the user to review the details of the bonded movement and click on an "Arrive" button to arrive it. Similar concept is used for all movement types.

3.If the company chooses to run a "Query", based on their company profile and the parameters completed, all Bonded shipments associated with their company, would be displayed with current status.

The flow chart for this process will need to be defined by the appropriate group. This is a suggested outline for a solution to help automate the currently non-automated and create a flow that eliminates inefficiencies impacting Trade and CBP financially as well as improves the flow of cargo.

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
MMM-HL-071	1101	<p>ALLOW NVOCC HOUSE BILL INFORMATION TO BE INPUTTED AND PROCESSED THROUGH THE SECURE ACE WEB PORTAL.</p> <p>The Current Non-Automated NVOCC issue/process: There are inefficiencies and added steps in the current process that perpetuate an already complex process. An example of this being the non-automated NVOCC and the process they and other trade partners must go through to provide the required house bill information into AMS. If the master loader for a consolidated container is an automated NVOCC, the Non-Automated NVOCC supplies the house bill information to the automated NVOCC who then submits the house bill information into AMS directly. However the automated NVOCC does so with a self generated (surrogate) house bill number NOT the true contract of carriage house bill number provided by the Non-Automated NVOCC. This can cause unnecessary confusion on the part of the customs broker as they have typically been supplied the house bill number from the Non-Automated NVOCC and are likely to file an ISF and entry that will result in a mismatch. This same scenario happens when the Master Loader is a Non-Automated NVO with the difference being the VOC then provides the submission of the house bill information into AMS directly and with the VOC also submitting a self generated (Surrogate) house bill number with no relationship to the Non-Automated NVOCC house bill number. In addition to the challenges this creates with mismatches to the brokers, it is also a major security issue. CBP doesn't have visibility to the true commercial party responsible for initiating the original shipment of cargo. In the scenarios presented CBP has the SCAC and bond of the filer submitting directly to AMS but not the original NVOCC who arranged the shipment.</p> <p>This current process delays broker transmission of entry release to CBP as it takes longer to discover the AMS HBL number. Many times it is not found out until after arrival. Container Freight Stations receive a manifest for the consolidated container reflecting the true contract of carriage HBL numbers for devanning and transportation release. The AMS HBL differs from the manifest causing delays in cargo release.</p> <p>Today's Non-Automated NVOCC only has a single automation solution available which is EDI based. Unless you have thousands of transactions occurring on a regular basis, an EDI solution direct from their operating system cannot be cost justified.</p>	11/4/2009	Pending	CR	<p>FEBRUARY 8, 2011-This GIF was determined to be NOT CARGO RELEASE RELATED. This refers to house bill input via the ACE portal. It is not directly related to cargo release but is intended to facilitate release of the cargo. Leave as cargo release related but it also ties to house bill release and manifest.</p> <p>JUNE 9, 2010 - Jim Swanson - This has not been developed for rail and sea due to limited interest and usage by that community.</p> <p>NOVEMBER 4, 2009 - THIS REQUIREMENT (CSPO-GIF-1101) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.</p>

The use of Service Providers for very small companies is an additional transactional expense which many cannot afford. This is a major issue for the Non-Automated NVOCC businesses who play an important role in the process of international trade. Furthermore it is not reasonable to expect the automated filers to take on the liability against their bond for the Non-Automated NVOCC. Most importantly is the security risk the current process maintains.

Suggested Solution: Enhance the Secure ACE Web Portal so that the Non-Automated NVOCC has the ability to file their shipment information into ACE directly using the contract of carriage house bill number.

In the case of the NVOCC submitting the initial house bill information through the ACE web Portal they would:

1. Log onto the Secure ACE Web Portal and proceed via link to the "house bill Shipment Processing" screen where they will choose from a button to "Create" or a button to "Query"
2. If the NVO was creating a new shipment they would choose "Create" and if they were wanting to run a query to see what shipments are active that they have created they would choose "Query"
3. In the "Create" screen there would be the appropriate fields to be completed and then submitted much in the same way this information is submitted to AMS by the automated NVOCC and VOC today.
4. In the "Query" screen a group of parameter fields would be available and then a submit button to list all of the active/open shipments per the parameters provided.

Of course this is a high level outline however a very reasonable and low cost solution in which the benefits to CBP and the Trade are far greater.

If required, CBP/AST will prepare the GIF for committee review.</p> <p>Update 6/18/2007: A. CBP will give a monthly report but not a statement. If anything is required in IASS a separate GIF will be required. B. This will be done in Post Summary Corrections - no GIF required. C. Same as B - no GIF required.</p> <p>Explanation of staged functionality for periodic payment: Release 3 – Generate statements and accept periodic payments via ACH credit and ACH debit, based on ACS activity. Release 5 - Periodic statements with ACE as system of record Release 7 - Full payment processing, Refund processing (including drawback and protest), IASS</p> <p>Explanation of multiple statuses (6/18/04): 1. Accepted in part: This recommendation is partially met with Release 3 2. Pending further committee review: While CBP is moving toward full periodic payment, in order for the trade's input to be fully considered in Business Blueprint, it is recommended that the Revenue Committee update this recommendation to (a) eliminate references to tracks 2, 3 and 4, (b) eliminate references to revenue neutrality, © decouple from IASS, (d) expand to encompass all payments, refunds rather than limiting to duties/taxes/fees, (e) include all account types (carrier and brokers) and (f) eliminate references to specific data elements.</p> <p>No updates required for REV 001.1.</p> <p>9/24/04: Based on recommendations from CBP (See 6/18/04</p>

above), this requirement recommendation was modified and resubmitted to CBP on 9/24/04.
 Updated status explanation:
 1. Accepted in part: This recommendation is partially met with Release 3
 2. Preliminary CBP approval: This recommendation will be considered in Business Blueprint for Releases 5 and 7 as appropriate.

10/14/05: Updated to reflect ESAR, A2.
 Outstanding issues (9/27 TSN Revenue meeting):
 1. Netting
 2. Process for and information received on operational statement
 3. National statements with non-portal accounts (reference REV-020)

Periodic statement is mapped to A2, with protest, drawback and IASS coverage mapped to A3.

11/2/05 -- Cross-team issue for Post Release - Part C of the requirement.
 Exception: PMS settlement vehicle will not allow "flexibility for refinement" by product or by surety.
 Exception: No Netting (Not accepted).

11/28/06: 1) CBP is not opposed to netting, but they do want to ensure that they can do statements correctly in A2. At that point CBP will consider expanding netting in A3; 2) National Statements will be allowed for filers and importers in A2; 3) Protest and drawback will be on the statement in A3; 4) A financial statement will be provided on all activity during the month, but this will not be a statement on which a payment can be made.

REV-001.2		A. Statements on accounts should reflect all Importer Activity Summary Statements (IASSs) as well as any other entries flagged for periodic payment for the month.	9/4/2001	Withdrawn	A3	<p>01/28/08: This requirement is withdrawn by the Revenue committee. The requirement has been included with REV-001.</p> <p>7/25/07: GIF requirement will be discussed at the October 2007 Revenue workshop. If required, CBP/AST will prepare the GIF for committee review.</p> <p>Updated 6/18/2007: Will require a GIF for A3.</p> <p>Explanation of staged functionality for periodic payment: Release 3 – Generate statements and accept periodic payments via ACH credit and ACH debit, based on ACS activity. Release 5 - Periodic statements with ACE as system of record, initial payments (including EFT and lockbox), violation billing, acceptance of cash payments Release 7 - Full payment processing, Refund processing (including drawback and protest), IASS</p> <p>Explanation of multiple statuses (6/18/04): 1. Accepted in part: This recommendation is partially met with Release 3 2. Pending further committee review: While CBP is moving toward full periodic payment, in order for the trade's input to be fully considered in Business Blueprint, it is recommended that the Revenue Committee update this recommendation to (a) eliminate references to tracks 2, 3 and 4, (b) eliminate references to revenue neutrality, © decouple from IASS, (d) expand to encompass all payments, refunds rather than limiting to duties/taxes/fees, (e) include all account types (carrier and brokers) and (f) eliminate references to specific data elements.</p> <p>No updates required for REV 001.1.</p> <p>9/24/04: Based on recommendations from CBP (See 6/18/04 above), this requirement recommendation was modified and resubmitted to CBP on 9/24/04. Updated status explanation: 1. Accepted in part: This recommendation is partially met with Release 3 2. Preliminary CBP approval: This recommendation will be considered in Business Blueprint for Releases 5 and 7 as appropriate.</p> <p>10/14/05: This requirement is mapped to ESAR A2 and A3. IASS maps to A3.</p> <p>11/28/06: IASS will be implemented in A3. IASS design resides with entry and is considered an entry summary type. Need to discuss with the Entry committee and develop consensus on IASS functionality. Future updates will be provided.</p>

REV-006		Improved tools by CBP to control automated issuance of Liquidated Damage Demands (CF5955A). CBP needs the ability to suspend the issuance of liquidated damage demands when it has been determined that the issue triggering the demand is not the fault of the importer.	10/1/2001	Withdrawn	A2.4	<p>MAY 28, 2009 - Referred committee to D. McKenzie in FP&F for further questions on this issue.</p> <p>6/18/2007: Will not have automatic issuance of the Form 5955A. This is a CBP policy issue - no GIF required.</p> <p>06/30/04: CBP requests additional clarification on this recommendation. Pursuant to 19 USC 1484, the importer of record is responsible. CBP does not automatically issue liquidated damage claims.</p> <p>08/11/04: Revenue Committee revised and resubmitted REV-006 to CBP to provide the clarification requested by CBP (above). As such, this recommendation has preliminary CBP approval.</p> <p>10/14/05: This requirement is subject to further analysis by CBP for consideration into A2 or A3.</p> <p>11/2/05 -- Cross-team issue for Finance This is problem across the board. CBP is not automating liquidated damages process in the current release timeline.</p> <p>11/28/06: Status is still accurate.</p> <p>12/11/06: This requirement was generated due to a trade concern that ACE would generate liquidated damages without human review. CBP confirmed that there will be human review. Collections which take place today in ACS will be handled in ACE in A2.</p>

REV-007		The system for handling all bills other than Fines, Penalties and Forfeitures ("Duty Bill System") should be upgraded to provide better notification system to the Trade, and allow the Trade to identify the reason for the bill.	9/5/2001	Replaced	N/A	<p>01/28/08: Replaced by REV-009.</p> <p>11/28/06: Above statement should read that REV-007 has been incorporated in REV-009 and therefore replaced by REV-009.</p> <p>Explanation of staged functionality: Release 5 - Statements and billing to cover entry summary and reconciliation liquidation, violation billing Release 7 - Statements and billing to cover IASS.</p> <p>Input from CBP Post Release: CBP would NOT need to recreate the bills, as is stated in the recommendation. This information should be available via the portal.</p> <p>08/2004: The Revenue Committee has incorporated the content of this requirement recommendation into REV-009. REV-007 is eliminated.</p>
<i>Owner:</i> Monica Crockett						

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
REV-008		Extract to Sureties: Customs must reproduce in ACE a system similar to the existing system that electronically provides information about entries and claims to sureties that result from bonds they issue.	9/5/2001	Replaced	A2.4	<p>Sept 2008 - Merged requirements with Accounts Committee Automated Surety Interface (ASI) user requirement/GIF</p> <p>01/28/08: This requirement is included in REV-009, REV-010, REV-014 and REV-018.</p> <p>4/11/07 This requirement will be discussed at the October 2007 Revenue Workshop</p> <p>A GIF has been prepared addressing the surety download requirement.</p> <p>11/28/06: 1) The surety GIF is pending review by the account management committee. 2) All Surety related requirements (REV-008, 009, 010, 014, 018) will be discussed in a separate meeting and updates provided.</p> <p>Explanation of multiple statuses: Rejected: CBP has rejected an entry summary query and importer/bond query in ACE that would provide access to bond data to 3rd parties.</p> <p>Preliminary CBP approval: Providing access to a surety of its own bond data via the ACE Secure Data Portal has preliminary CBP approval.</p> <p>Pending further Committee Review: CBP would like to understand what is intended where the document states that a surety is no longer obligated on an entry. Sureties remain obligated on entries for those obligations that vest during the time that the surety guaranteed performance. A change in sureties only means that the original surety will not be responsible for obligations vesting after the change. When, therefore, would an obligation, other than the surety having paid the full amount of the bond. Is that what is meant?</p> <p>8/6/04: The Revenue Committee revised REV-008 and resubmitted to CBP to provide clarification in response to CBP comments (above). As a result, recommendation now has preliminary CBP approval.</p> <p>10/14/05: Mapped to ESAR. Reference ACE 009.12.</p> <p>11/2/05: Cross-team issue to CT&E Post Release reporting owned by ESAR PR team Reporting in ACE owned by S&T</p> <p>Exception - There will not be FP&F reporting</p>

REV-011	675	SETTLEMENT OF USER FEES: The system will provide functionality that allows for settlement of all user fees not collected in connection with entry of merchandise and not otherwise provided for in the requirements issuing from this committee, e.g., the customs brokers user fees specified in 19 C.F.R. 111.96(c) and 111.96(d), by check at a single Customs office designated for collection of payments or by EFT or similar electronic means through ACE.	2/12/2002	Pending	A2.4	MAY 20, 2009 - THIS REQUIREMENT (CSPO GIF 675) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW. Sept 2008 - Deferred to A2.4. Being tracked in the Dimensions Data Base as GIF 675 03/05/2008 - Submitted for CBP/GIF Board Review Assigned CSPO-GIF-674 - Pending GIF Board Review. 01/28/08: REV-GIF-011 prepared. Ready to submit to CBP for CBP GIF Board review. 7/25/07: GIF requirement will be discussed at the October 2007 Revenue workshop. If required, CBP/AST will prepare the GIF for committee review. 6/18/2007: Will require a separate GIF fo A2. June, 2004: While CBP agrees in concept, the goal would be to have such fees collected via broker statement. 9/23/04: The TSN Revenue Committee revised and resubmitted this requirement recommendation based on the clarification requested by CBP (above). 10/14/05: Mapped to ESAR 11/2/05 -- facilitated by ACH payments on bills. 11/28/06: On schedule for implementation in A2. <i>Owner:</i> Monica Crockett
REV-012	774	REDIRECTION OF BILLS, REFUNDS, & LIQUIDATION NOTICES: The system will provide functionality equivalent to the current CF4811 that allows an importer to redirect CBP bills, refunds and notices of liquidation, singly or in any combination. Additionally, the system will provide for these changes to be defined, at the importer's discretion, with maximum flexibility, e.g. A. If an importer employs more than one entry filer, it can employ this functionality to the respective filer for the underlying entry transaction at the entry or summary level. B. It may elect to designate a single account to receive the items. C. It may select only specified entries or summaries for redirection D. It may set-up any logically consistent method for distribution of the items.	5/17/2002	Pending	A2.4	MAY 20, 2009 - THIS REQUIREMENT (CSPO GIF 774) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW. Sept 2008 - Deferred to A2.4. Being tracked in the Dimensions Data Base as GIF 774 Status: 03/25/2008 - ESAR review - in scope for A2.3 4/11/07 - In scope for A2 - No GIF required. This requirement falls under the Account Mgmt business process. 10/14/05: Mapped to ESAR 11/2/05 -- secondary owner: Post Release 11/28/06: Refer to comments on REV-004. <i>Owner:</i> Monica Crockett

REV-016		<p>AES PROOF OF EXPORT</p> <p>Trade requires US Customs and Border Protection (CBP) to accept the electronic Shipper's Export Declaration (SED) that is filed through ACE as one of the methods for proof of export for a drawback claim. The ITN Number (ACE confirmation number issued to filer of SED) will be transmitted on the drawback claim. The ITN number is a unique identifier on the transaction that indicates the exact export commodity data filed on behalf of a USPPI (US Principle Party of Interest) . The commodity data and export record provide substantial and necessary proof of export and meet the requirements for proof of export under Part 191.72. Proof of exportation requires proof of the date fact of exportation and identify of the exporter. The date of export will be on this record as provided by the carrier and the fact of exportation will be established by the information showing destination, vessel and specific description of the exported articles by Schedule B or HS number, quantity and value. It is presumed that in 2005 mandatory filing of all SED's will be placed into Export regulations issued by Bureau of Census. The information contained in the SED should satisfy all of the requirements for proof of export. Information is filed by HTSUS or Schedule-B number (commodity details) and the transportation details are confirmed by all carriers (VOCC and NVOCC) filing their cargo manifest in advance of cargo loading for ocean carrier, prior to flight for air carriers and prior to crossing for all truck and rail carriers.. The cargo manifest details will be matched in ACE exactly to the commodity details by way of the ITN number. As mentioned above, we expect in 2005 the mandatory electronic filing of all SED information. We also expect the term "SED" to be changed to "EEI" (Electronic Export Information). This change will not change data elements required today in the export process.</p>	1/18/2004	Withdrawn	A2.4	<p>03/10/2008 - Drawback Subcommittee will draft a GIF. This GIF is withdrawn by the Revenue Committee.</p> <p>01/28/08: Will require further discussion with the Drawback subcommittee and Export committee.</p> <p>11/28/06: Will be further reviewed by the Drawback subcommittee and updates will be provided. Drawback subcommittee will update with AES instead of SED terminology.</p> <p>June, 2004: CBP would like this recommendation to be rewritten by the Subcommittee to reflect the fact that the SED is the intent to export and not the proof of export. (This issue was covered in the 5/20 TSN Drawback meeting.)</p> <p>9/24/04: The TSN Revenue Committee revised and resubmitted REV-016 based on the input from CBP (above). As such, recommendation has preliminary CBP approval.</p> <p>10/14/05: Mapped to CCR</p> <p>(Reviewed by CCR team June 2006-regular updates will be provided)</p>

REV-DBK-005	1074	<p>ESTABLISH DRAWBACK CROSS ACCOUNT TYPE</p> <p>The trade requires cross account access for what is typically known as 3rd party drawback, and for situations where a broker is filing drawback on behalf of a claimant.</p> <ul style="list-style-type: none"> In 3rd party drawback, the drawback claimant is not always both the importer and the exporter. For example, a drawback claimant may be the exporter and the drawback claim will be based upon imports that have been transferred from an importer (in another importer's account). The drawback claimant might also be the importer and the drawback claim will involve exports made by an exporter (assuming exports are linked with ACE, in another party's export account). Any other party in the chain (manufacturer, producer, intermediate party) could also be a drawback claimant even though that party is neither the importer nor the exporter. In each of these instances, the claim will be based upon records (either import or export) in the account of another party. Where a broker files drawback, that broker will only have access to the transactions of the importer if the broker was the filer of the import entry. In order properly to prepare a claim or transfer drawback rights, the drawback broker (broker with a power of attorney (POA)) needs access to the transactions of its client even though the record may have been filed by another filer. Drawback claimants and brokers filing drawback need the ability to access this drawback data before the claim is filed in order to view the underlying import data to file claims, to download import entry information, or to view previous drawback claim data. This cross-account access would be based upon importer ID number. In order to grant access, the account would need to identify the specific IR number and perhaps user name for the party allowed access to this data. In addition, in order to prevent access beyond that necessary for drawback, the screen granting access should allow the account to limit this access to records with specific filer codes, dates, HTS numbers, ports, manufacturers, entry numbers, etc. Once the appropriate access has been granted, the party granted access would have the ability within its own portal to query/download to standard desktop application data for liquidated or un-liquidated import entries using selection criteria such as IRN, entry #, port, filer code, import date, entry date, HTS #, liquidation status. 	01/16/2009	Pending	A2.4	OCTOBER 16, 2009 - THIS REQUIREMENT (CSPO-GIF-1074) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW.

These requirements will be included in REV-GIF-026 = CSPO-GIF=727 01/30/08: Action to draft GIF from the October 2007 Revenue workshop. Accounts committee has approved the GIF. Sent to Revenue committee for review and input. <i>Owner:</i> Monica Crockett

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
REV-GIF-026	727	FINANCIAL REPORT IN LIEU OF DAILY STATEMENTS: It is critical that if the Periodic Daily Statement is eliminated that the Trade be able to receive payment information for all entries via ABI. This information is used for purposes such as ensuring that a filer's import system payable information matches the ABI receivable information (soon to be ACE). Returning the periodic daily statement information will enable reconciliation by the filer during the month so payment may be accomplished timely when the monthly statement is issued. The preferred solution would be retention of the current daily periodic statement. This includes entries showing zero payment due.	8/25/2009	Pending	A2	AUGUST 25, 2009 - THIS REQUIREMENT (CSPO-GIF-727) WAS RETITLED AND THE DESCRIPTION WAS REVISED IN THE DIMENSIONS DATA BASE FOR CBP CHANGE CONTROL BOARD REVIEW. ALSO INCLUDES REV-GIF-025. MAY 28, 2009 - Revenue committee will submit part of this requirement and the Entry committee will submit part of the requirement. The Revenue committee will resubmit this requirement as "Replacement of Daily Statements Financial Report" MAY 20, 2009 - THIS REQUIREMENT (CSPO GIF 727) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW. March 2009 - Revenue committee will divide this GIF into two parts: 1) Post Release and 2) finance. 05/29/2008 - Submitted for CCB review and being tracked in Dimensions data base as CSPO-GIF-727 03/10/2008 - Conference call to be held by committee for further review. 01/30/08: Action to draft GIF from the October 2007 Revenue workshop. Detailed discussion planned for TSN (Feb 2008)
						<i>Owner:</i> Monica Crockett
REV-GIF-027	1035	NOTICE OF LIQUIDATION EXTENSION: Where liquidation has not been suspended or extended the system will generate and give official notice of liquidation at the thime of liquidation. If an extended liquidation will be further extended the system will give official notice of further extension prior to the expiration of the last extension. The System will generate and give official notice of liquidation at the time of liquidation, or if that is not possible for any reason, as soon thereafter as is possible regardless of the legal authority by which the liquidation was done.	3/5/2008	Pending	A2.4	SEPTEMBER 10, 2009 - THIS REQUIRMENT (CSPO-GIF-1035) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW. Sept 2008 - On hold for review by Legal Policy Committee 03/05/2008 - Being reviewed internally by the Revenue Committee.

REV-GIF-028	723	STATEMENT OF PAYMENT DELETE: For entries filed at the Port a customs broker may file an entry summary with a notation that the importer did not fund the duty payment, hence no duty tender accompanies the entry summary filing. For RLF entry the current ACS system does not permit deletion of the payment from a statement. The system currently allows this function for non-RLF entries. ACE should provide functionality for both RLF and non-RLF entries to cover this business scenario. Additionally the importer should have near real time visibility to these deletions.	3/5/2008	Pending	A2.4	MAY 20, 2009 - THIS REQUIREMENT (CSPO GIF 723) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW. 05/29/2008 - Submitted for CCB review and being tracked in Dimensions data base CSPO-GIF-723 03/12/2008 - This requirement is in internal committee review.
		<i>Owner:</i>	Monica Crockett			
REV-GIF-029	775	THIRD PARTY BOND QUERY: The system must identify the query submitter as the bond principal, surety, surety agent, bond filer, or customs broker of record, or other. If other, ACE will return limited information to include: bond on file, the name and address of the principal on that bond, type of bond activity covered. If the submitter matches one of the above identified parties, ACE will return complete bond information.	3/5/2008	Pending	A2.4	MAY 20, 2009 - THIS REQUIREMENT (CSPO GIF 775) IS PENDING CBP CHANGE CONTROL BOARD (CCB) REVIEW. 08/01/2008 - Submitted for CCB review. Being tracked in Dimensions data base as CSPO-GIF-775 03/12/2008 - This requirement is in internal committee review.

TRA-001		<p>The "Transition Matrix" is an interactive help screen that will give real-time guidance as to which system (ACE or ACS) is used, and specific technical data relevant to using the systems during the lengthy incremental transition from ACS to ACE.</p> <p>The matrix could be in the form of a screen within the ACE portal environment, or a web page in a separate Internet domain. But must be able to be invoked from any screen accessed by a CBP or trade user.</p> <p>The "Transition Matrix" will provide users with information on which system, ACS or ACE, is the system of record for specific functions at specific ports, and how data is transmitted and received to and from the system (s).</p> <p>It could achieve this goal through a number of different input approaches, such as:</p> <ul style="list-style-type: none"> •An interactive online form where users could select elements such as port code, date of entry, mode of transportation, etc. •A graphic "map-type" display of ports, where a given port location could be clicked on to allow a view of a chart showing which functional items will transition from ACS to ACE on which dates. •A simple spreadsheet approach organized by port name or port code, with the same information <p>In any case, the output of such a system would allow users to know which system is the system of record for any given activity on any given date, and to know of any special rules or protocols necessary in terms of data transmission or message receipt.</p>	9/17/2004	Withdrawn	A1, A2, A3, M1, M2, M3	<p>(Reviewed by CCR team June 2006-regular updates will be provided)</p> <p>9/11/07 This requirement has been withdrawn by the Transition Committee- it has been overtaken by events</p>
<i>Owner:</i>			Susan Maskell			
TRA-GIF 494	494	<p>The ACE Portal only saves data that is "keyed" into it. For carriers that dual utilize EDI and the Portal, this is a severe detriment. It causes the user to key data (Conveyance/Driver/Shipper/Consignee...)even though it has been supplied to Customs via an EDI manifest. For example: UPS send John Smith's and Tom Jones' driver data daily via an EDI transmission of their ACE manifest. John Smith gets ill prior to crossing the border and UPS wants to replace him with Tom Jones and utilize the Portal to amend the manifest. The Portal forces the user to key all of Tom's data elements because there is no previous record with the Portal. The Portal should store EDI data similarly to the way it stores keyed information. The method of the data should not matter thereby providing the user greater flexibility.</p>	1/16/2007	Accepted	M2.2	<p>October 2, 2008 - CSPO-GIF-494 was approved by the CCB and is in closed status.</p> <p>2/7/08: The trade requested that for purposes of the manifest (309 or CUSCAR), they be allowed to transmit crew, conveyance, and equipment data with an indicator reflecting that this data should be added to their portal account so that in the future, they can reference their ACE ID and not have to input all of that information into their portal account. The CCR team is looking at this request for purposes of the M2 scope. It is doubtful that the functionality will be provided through the 309 or CUSCAR. More than likely, this functionality will be provided through an X.12 359 message which would be the equivalent to the UN/EDIFACT MEDPID message currently available.</p>

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
TRA-GIF 183		<p>e-Manifest is a major data collection event required by Trade Act Legislation. The sheer magnitude of the trade and CBP costs bringing on-line a new data participant- the trucker - requires forward thinking on how can CBP and the trade effectively implement and 'service' e-manifest. Efforts have solely focused on pushing the trucker to develop infrastructure to either submit directly through the ACE portal or developing EDI solutions or using data processing centers to file trips data and commodity manifest data. From a ramp-up perspective to full implementation in this fashion is both prohibitively expensive for a majority of the trucker community, especially along the Southern Border where the business is dominated by very small Mexican trucking companies who provide just in time trucking to the Maquila or Produce Distributor. The Broker is a logical go-to party for collecting, and managing the e-manifest data. They have the IT infrastructure to absorb the e-manifest data collection requirements. They are ABI (translate to ACE) experienced. They have the front line relationship with CBP ABI/ACE personnel - i.e., ABI Reps. In fact, by allowing the broker to participate in a formal e-manifest role, CBP will be able to leverage this relationship expertise to maximize implementation timelines, continue the process of integrating Brokers' IT systems with ACE, which will give CBP a head start as it enters the later phases of ACE for entry processing, liquidation, etc. Additionally, on the Southern Border, the Broker has played the role of preparing the 7533 and Pro-forma's as well as managing the truck flows into the US. Another additional compounding element in implementing e-manifesting on the Southern Border is the cross-cultural barriers such as language. Again, the US Broker, being bi-lingual, and conversant with CBP is the most efficient intermediary between the trucking community and CBP. Their intimate knowledge of CBP rules and regulations, and existing IT sophistication will allow CBP to efficiently leverage their staff, (ABI-ACE account reps), and by reducing the # of contact points (1K brokers vs. 100K truckers), they will gain a higher level of compliance, and more rapid implementation at a significantly less cost to both trade and CBP. ABI Reps have indicated that this would work well for them, and would be preferred to being responsible for a new, large trade group. In these times of rising federal deficits, trade and CBP has the responsibility to examine hybrid solutions such as these. The IT requirements are fairly simple. - create a header record similar to the ABI A/B record</p>	12/29/2005	Withdrawn	4	This GIF was withdrawn by the Committee on March 29, 2006 due to the publication of the Third Party Manifest FRN (see, 71 FR 15756, published March 29, 2006), which now meets this requirement recommendation.

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
		that id's the trucker (SCAC), and the filer (ABI Filer #), and allow the Carrier to have a one to many relationship with the brokers, similar to what the importer is able to do. There will have to be some tweaking of account access and record review on the ACE portal. (The registration requirements for ACE participation will not be significantly impacted.)				
			<i>Owner:</i>	Susan Maskell		
TRA-GIF 184	550	A notification of a change to be sent to an EDI Filer when someone changes the manifest on the portal. This will allow the trade to keep their data synchronized with what CBP has on the portal.	12/29/2006	Rejected	4, M2.2	New GIF number = CSPO-GIF-550 : This GIF was REJECTED 6/27/07
			<i>Owner:</i>	Susan Maskell		
TRA-GIF 185	551	ACE development would progress faster if the service center/software vendor was allowed to access the portal to try different types of data submission scenerios to test theories. Grant access to the Portal for Software Developers/Service Vendors. This would be a test scenario and data would not be transferred into the live production areas within CBP. Security withing the portal would have to be adjusted so that the Service Center/Software Vendors can only see the information for a carrier that they have transmitted. Alternatively, the Service Center/ Software Vendors can be assigned a test Carrier SCAC code that they can use for sending EDI data and for Portal access instead of using a real carrier SCAC code.	12/29/2006	Accepted	4, A1	New GIF number = CSPO-GIF-551 - ACCEPTED 3/14/07 CR-2266 This GIF has been approved for CR status
			<i>Owner:</i>	Susan Maskell		
TRA-GIF 186		ACE should allow for batches of messages to be sent and processed in sequence instead of sending all messages to the processor's within seperate processes (on the ACE EDI end), This will ensure that messages are processed in the order that the trade is expecting. When they are run out of order, unexpected errors occur.	12/29/2006	Rejected	4	This GIF was declined/rejected because this functionality already exists in ACE

TRA-GIF 200	291	(1) Despite the best efforts of CBP to design a system that allows for electronic submission of all entry data, there will always be new situations that require additional documentation. This often occurs in the form of signed statements from the importer or foreign shipper. (An example is the Solid Wood Packing Material issue when it first arose.) Such certifications, or new forms required by agencies other than CBP currently force entries to revert to paper processing. (2) In many cases, processing by CBP, or the resolution of inquiries by CBP (e.g., requests for information about a product), could be made much more efficient through the use of scanned images which are part of the electronic record of an entry, or attached at the account ID level to a company as a whole.	1/9/2006	Rejected	A2, A3, M1, M2, M3	New GIF number = CSPO-GIF-291 - REJECTED This GIF replaces the following requirements: BUS-001, BUS-002, and INT-3
		<i>Owner:</i> Susan Maskell				
TRA-GIF 201	290	Software development for data transfers between parties has evolved over the recent years using new formats such as XML. Many companies have experience with XML data transfers and would like to use this format to exchange data with CBP. Customs has historically developed proprietary standards for EDI, and under ACE should ensure that XML utilization for Trade interfaces complies with appropriate international standards. CBP will continue to support multiple EDI standards. ACE will permit transmission by the following EDI standards: ANSI-X 12 UN/EDIFACT CATAIR CAMIR AESTIR Cargo IMP (CBP Implementation will be more closely aligned with IATA standards). As new data standards are developed in the software industry, CBP should evaluate the standards to see if they should also be offered as an alternative standard for data transfers.	1/9/2006	Rejected	A2, A3, M1, M2, M3	Nie GIF number = CSPO-GIF-290 - REJECTED This GIF replaces the following requirements: INT-1 and INT-7. This GIF has been referred to CBP for consideration at the enterprise level.
		<i>Owner:</i> Susan Maskell				

<i>Requirement #</i>	<i>GIF</i>	<i>TSN Requirement Description</i>	<i>Submission date</i>	<i>Status</i>	<i>Release (s)</i>	<i>Comments</i>
TRA-GIF 202	289	Whenever an ACE capability is deployed that would replace a legacy interface capability, the deployment should be done in a phased in approach instead of a nation-wide "Big Bang" plan where CBP and Trade would be required to deploy for use on a specific day and time. Additionally, whenever possible, CBP should implement "their side" of the change prior to making a change mandatory for the trade. For example, CBP could deploy the Entry Summary processing to the ACE system using the existing EI messages from the Trade. Once all of the existing entry summaries can be processed successfully, then CBP can request that the trade submit the changed format EI message. A deadline would be set by CBP to have all filers submitting the changed format message by a particular day.	1/9/2006	Rejected	A2, A3, M1, M2, M3	New GIF Number = CSPO-GIF-289 - REJECTED This GIF replaces the following requirement: INT-2. This GIF was withdrawn by the Committee on 2/27/06 due to the fact that the decision to pursue a "Big Bang" deployment strategy has already been made by CBP.

reference code field that performs this function.

- oExample – 9813.00.50, 9017.90.0005-9017.90.0060, 5810.91.0010-5810.99.9000 (“The rate applicable to the article of which it is a part or accessory”)
- Aircraft - The use of “***” as the carrier code on an entry is only permitted if the tariff number is defined as an aircraft. An example: 8802.40.0099
- License, Certificates and Permits
 - oAgriculture License
 - oCanadian Export Sugar Certificate
 - oWool License
 - oCaribbean Basin Trade Partnership Act (CBTPA) Certification
- Example – 9820.11.15
- oAfrican Growth and Opportunity Act (AGOA) Textile Provision Number
- Hong Kong Visa
- oSee Appendix K of CATAIR – Examples: 6103.29.2066, 6104.29.2077 and 6110.90.9018
- Watch Flag - Special processing required for watches and clocks. See statistical notes for Chapter 91. For example:
 - o9109.19.6020, 9101.11.4000
- Sets - Numbers that define a set – “The rate of duty applicable to that article in the set subject to the highest rate of duty” and “The rate applicable to each article in the absence of this subheading”.
 - o9608.50.0000, 8215.20.0000, 8215.10.0000, 8206.00.0000, 8205.90.0000
- TIB fields for TIB Bond 110%, TIB Duration (6 or 12 months), and TIB Extension Limit (2 additional years). For example:
 - o9813.00.20, 9813.00.30, 9813.00.50, 9813.00.55, 9813.00.75
- MPF Not Required – For Example:
 - o9999.00.84, 9813.00.75, 9813.00.30, 9802.00.5030-9802.00.5060
- HMF Not Required – For Example:
 - o 9813.00.75, 9813.00.30
- Chapter 99 Numbers
 - oGrouping Required
 - oDuty Overrides what would normally be on the 1-98 numbers. For example:
 - 9903.02.21, 9903.02.45, 9903.41.10
 - oDuty in Addition to the duty on the 1-98 numbers. For example:
 - 9904.02.01, 9904.02.17, 9904.05.01
 - oTextile and Apparel Goods from Canada and Mexico. For example:
 - 9999.00.54, 9999.00.61 and 9999.00.84
- Group Processing – Tariff numbers that must be grouped with other numbers
 - oFor example: Tariffs that are listed in General Note 25(M) and require 9999.00.84 grouping to exempt

MPF, CBP does not send us an SPI in the tariff file because the 9999.00.84 grouping forces the exemption and no SPI is required, but we have no way of knowing which tariff numbers should be grouped with this 99 number because CBP does not return any flags in the tariff file.

- oMore examples: 9017.90.0005 ("The rate applicable to the article of which it is a part or accessory"), 5810.91.0010 ("Free, but in the case of embroidery in the piece not less than the rate which would apply to such product if not embroidered."), Most Chapter 98 and 99 numbers.
- Cotton Assessment Excluded on Associated # and Base #
 - oWhen the cotton fee does not apply even if the HTS requires the fee
 - oFor example if a cotton classification is used with several of the 9802 provisions the fee does not apply. Additionally there is an override code that can be used to let ABI know that the cotton fee does not apply. This override code can be used only on some of the HTS that requires the fee.
 - oExample – 9802.00.4020
 - Province of Origin Reporting Required for Canadian Lumber
 - oExample – 4407.10.0001
 - Column 1 Quantity 1 Requires 1 Decimal Position
 - oExample – 2205.10.6000
 - Column 1 Quantity 1 Requires 2 Decimal Positions
 - oExample – 0402.21.5000
 - Column 1 Quantity 2 Requires 1 Decimal Position
 - oExample – 1701.12.0500
 - Column 1 Quantity 2 Requires 2 Decimal Positions
 - oExample – 0401.30.7500
 - Column 1 Quantity 3 Requires 1 Decimal Position
 - oExample - None in current tariff.
 - Column 1 Quantity 3 Requires 2 Decimal Positions
 - oExample – 5503.40.0000
 - Column 2 Quantity 1 Requires 1 Decimal Position
 - oExample – 2204.10.0030
 - Column 2 Quantity 1 Requires 2 Decimal Positions
 - oExample – 2203.00.0090
 - Column 2 Quantity 2 Requires 1 Decimal Position
 - oExample – 1701.11.0500
 - Column 2 Quantity 2 Requires 2 Decimal Positions
 - oExample – 2204.30.0000
 - Column 2 Quantity 3 Requires 1 Decimal Position
 - oExample - None in current tariff.
 - Column 2 Quantity 3 Requires 2 Decimal Positions
 - oExample - None in current tariff.
 - Quantity 1 – Not Provided for in the Tariff
 - oExample - None in current tariff.
 - Quantity 2 – Not Provided for in the Tariff
 - oExample – 2105.00.1000
 - Quantity 3 – Not Provided for in the Tariff

oExample - None in current tariff.
•Textile Visa/Quota Reporting Qty is Qty 2
oExample – 4202.12.4000
•Singapore (ISI) Eligible
oExample – 3818.00.0010
•Tariff Number Restricted from use with RLF
oExample – 0711.20.1800
•Duty Rate/Amount may be entered
oExample – 5810.91.0010
•IR Tax Rate/Amount may be entered
oExample – 9801.00.1015

Definition of Status categories:

| | |
|---|--|
| Accepted | The user requirement and/or GIF has been accepted by CBP and delivered in an ACE Release |
| Accepted in Part | A portion of the use requirement has been delivered in ACE but other portions of the user requirement are still pending CBP approval |
| Pending | The user requirement is pending CBP review and analysis for a future release |
| Rejected | CBP has rejected this recommendation. |
| Withdrawn | The recommendation is: a) no longer relevant; b) overtaken by events; or c) already incorporated in existing functionality or other recommendations. |
| Preliminary CBP Approval | The user requirement has been agreed to by CBP for planning consideration in a future release, but the requirement has not yet been delivered in an ACE release. |
| Pending CBP HQ Input | The user requirement will require further review by appropriate CBP HQ offices prior to formal CBP CSPO acceptance. |
| Pending CBP L/P Input | Requires CBP L/P review to determine if there are any L/P dependencies that will impact action on the recommendation. |
| Pending Further Committee Review | The user requirement has been returned to the submitting committee for further clarification and specificity. |
| Replaced | Recommendation was completely revised and replaced by a new version of the recommendation and/or included in a GIF |

Release/Drop Categories for Entry Summary Account and Revenue (ESAR) and Cargo Control and Release (CCR)

| | |
|-------------|--|
| | ENTRY SUMMARY ACCOUNTS & REVENUE (ESAR) |
| A1 | Master Data and Enhanced Accounts |
